Minimum consortium size

- Collaborative projects (incl. RIAs, IAs): Usually a consortium must have a minimum of 3 independent legal entities, each established in different EU Member States (MS) or Associated Countries (AC), with at least 1 of them established in a MS

- Coordination & Support Actions: One or more legal entities, which may be established in a MS, AC, or in exceptional cases and if provided for in the specific call conditions, in another third country.

Why participate?

- Development of cutting-edge ideas

- Access to new knowledge and skills

- Strategic partnerships and collaborations

- Access to advanced technologies and methods

- Influence standards, regulations and research policies

- Increased visibility at national, EU & global level

- Solutions to global challenges

Message to convey

1

Look at relevant EU-policy

2

Think about Impact and stakeholders

3

Include multidisciplinary expertise

European Commission

VINNOVA

Impact and stakeholders

"The active involvement of local, regional or national authorities and sectoral social partners, particularly in the uptake and implementation of research results and recommendations."

"Proposals should actively engage with a range of stakeholders, such as social partners, civil society, citizens, research practitioners, industry and public authorities. "

"The research should involve the CCIs and other creative actors themselves, policy makers and other stakeholders in order to ensure that the activities are relevant to the end users."

"…involve relevant educational stakeholders with a double goal of allowing co-creation and enhancing societal impact in the future".

HORIZON EUROPE IMPACT IMPLEMENTATION

EC POLICY PRIORITIES	Political Guidelines for the European Commission 2019-2024 (and other key strategic documents - e.g. Green Deal)	
KEY STRATEGIC ORIENTATIONS FOR R&I	Set of strategic objectives within the EC policy priorities where R&I investments are expected to make a difference	
IMPACT AREAS	Group of expected impacts highlighting the most important transformation to be fostered through R&I	
EXPECTED IMPACTS ⇒ *DESTINATIONS* = *General objectives*	Wider effects on society (incl. the environment), the economy and science enabled by the outcomes of R&I investments (long term).	*Strategic Plan & Work Programme: R&I contribution to seamless, smart, inclusive and sustainable mobility services* / *Project : Increase maximum passenger capacity by 15% and passenger average throughput by 10%, leading to a 26% reduction in infrastructure expansion costs*
EXPECTED OUTCOMES =>*TOPICS* = *Specific objectives*	Effects of Horizon Europe projects such as uptake, diffusion, use and deployment of the projects' results by direct target groups (medium term)	*Work Programme : Innovative accessibility and logistics solutions applied by the European Transport sector* / *Project : At least 9 European airports adopt the advanced forecasting system that was demonstrated during the project*
PROJECT RESULTS = *Operational objectives*	What is produced during the project implementation, such as innovative solutions, algorithms, new business models, guidelines, policy recommendations, methodologies, publications, database, prototypes, trained researchers, new infrastructures, proof of feasibility, networks, etc. (short term)	*Project (by the end of its implementation): Successful large-scale demonstration trial with 3 airports of an advanced forecasting system for proactive airport passenger flow management*

1. Creating high-quality new knowledge
2. Strengthening human capital in R&I
3. Fostering diffusion of knowledge and Open Science

Scientific Impact

4. Addressing EU policy priorities & global challenges through R&I
5. Delivering benefits & impact via R&I missions
6. Strengthening the uptake of R&I in society

Societal Impact

7. Generating innovation-based growth
8. Creating more and better jobs

HORIZON-CL2-2021-TRANSFORMATIONS-01-03: Determining key drivers of inequality trends

Specific conditions

Expected EU contribution per project	The EU estimates that an EU contribution of between EUR 2.00 and 3.00 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
Indicative budget	The total indicative budget for the topic is EUR 10.00 million.
Type of Action	Research and Innovation Actions

Expected Outcome: Projects should contribute to the following expected outcomes:

- Analyse the main drivers of inequality trends, considering both inequality of opportunities and inequality of outcomes in terms of conditions of life, economic

Scope: In the light of increasing economic and social inequalities and regional disparities in terms of both economic and other outcomes and opportunities, research should analyse the main reasons for the increasing inequalities reported in the last decades worldwide and, thereby, identify whether this is primarily policy driven and/or the result of different factors related to globalisation and technological innovations. More specifically, research should examine whether inequality dynamics are determined by different trends:
