

Horizon Europe Matchmaking Event

Foodtech Scale-Up

Join an exclusive virtual matchmaking roundtable, held in collaboration with the EARTH Alliance initiative that accelerates climate innovation through global collaboration. The event brings together food innovation professionals from Sweden, Finland, Austria, Singapore, Israel, and across Europe to form competitive Horizon Europe consortia and co-develop proposals addressing sustainable nutrition through novel proteins and biotech-enabled food solutions.

The round table will focus on two open calls:

Nutrients produced by microbes utilising primarily CO₂ from the air, with the support of biotechnology

Scaling-up nutritional proteins from alternative sources

Why Join?

Pitch & meet hand picked organisations, experienced and influential participants

Organic and effective matchmaking to form your consortium

Access to EARTH Alliance partners' broad networks in Europe, Israel and beyond

Booster package to create a winning bid

Who?

- ✓ Researchers & Universities in biotechnology, microbiology, CO₂ utilization, and sustainable food systems
- ✓ Industry Companies producing nutritional proteins, bio-based products, and alternative food solutions
- ✓ Startups focusing on alternative proteins, microbial nutrients, and biotech for the bioeconomy
- ✓ Farmers, Fishers & Aquaculture Producers exploring sustainable and tech-driven food production
- ✓ Environmental & Circularity Experts working on CO₂ capture, biodiversity, and impact reduction

When?

Tuesday, 13 May 2025

09:00 - 11:00 CET | 10:00 - 12:00 IST zoom
