

Vinnova's open API

Vinnova's structure

Vinnova finances projects within the framework of various programmes. The programmes are aimed at actors in society that are important for Sweden's innovation compacity. We promote collaboration among companies, higher education institutions, research institutes and the public sector. Each programme has one or more calls for proposals with one or more application rounds.

Vinnova's open data may be used freely without fees or other restrictions (Public Domain Mark).

API versions

The current version is v2.0.

Version 2 added an API for application rounds that only shows the reference number.

Version 2.0 also allows the download of specific cases through a comma-delimited list of reference numbers.

Previous versions are v1.0: Data.vinnova.se/api/v1/utlysningar/2017-07-01

Detailed description of fields in the calls for proposals API

```

API versions

This API was produced for version 2.0.

Most information about the application rounds was previously included in the API for calls for proposals. An application can now have one or multiple system submission instances except for on the closing date.

You can download specific programmes through a comma-delimited list with reference numbers.

Detailed description of fields in the application round API

```
{
  "Diarienummer": "2017-01673", Reference number= the case identity
  "DiarienummerUtlysning": "2016-04866",
  "Titel": "Smarta städer",
  "Beskrivning": "För en enklare och smartare kommunikation ",
  "TitelEngelska": "x", Used for international focus
  "BeskrivningEngelska": "x", Used for international focus
  "Oppningsdatum": "2017-06-16T00:00:00", The earliest date the application can begin to be filled in.
  "Stagningsdatum": "2017-11-25T14:00:00", The time and date when the application must be marked as completed so that it can be submitted by the system to Vinnova.
  "DagligAvlasning": 0, 0 or 1. 1 indicates that applications for this round are submitted by the system daily to Vinnova.
  "AvlasningstillfalleLista": [ List of submission dates, except for the closing date, when Vinnova processes applications marked as completed.
    {
      "AvlasningsTillfalle": "2017-06-18T14:00:00"
    },
    {
      "AvlasningsTillfalle": "2017-07-20T14:00:00"
    }
  ],
  "UppskattatBeslutsdatum": "2017-08-05T00:00:00", May be null
