4 Call: Process and Criteria

5 Submission tool

FutureFoodS

The European partnership for a sustainable Future of Food Systems

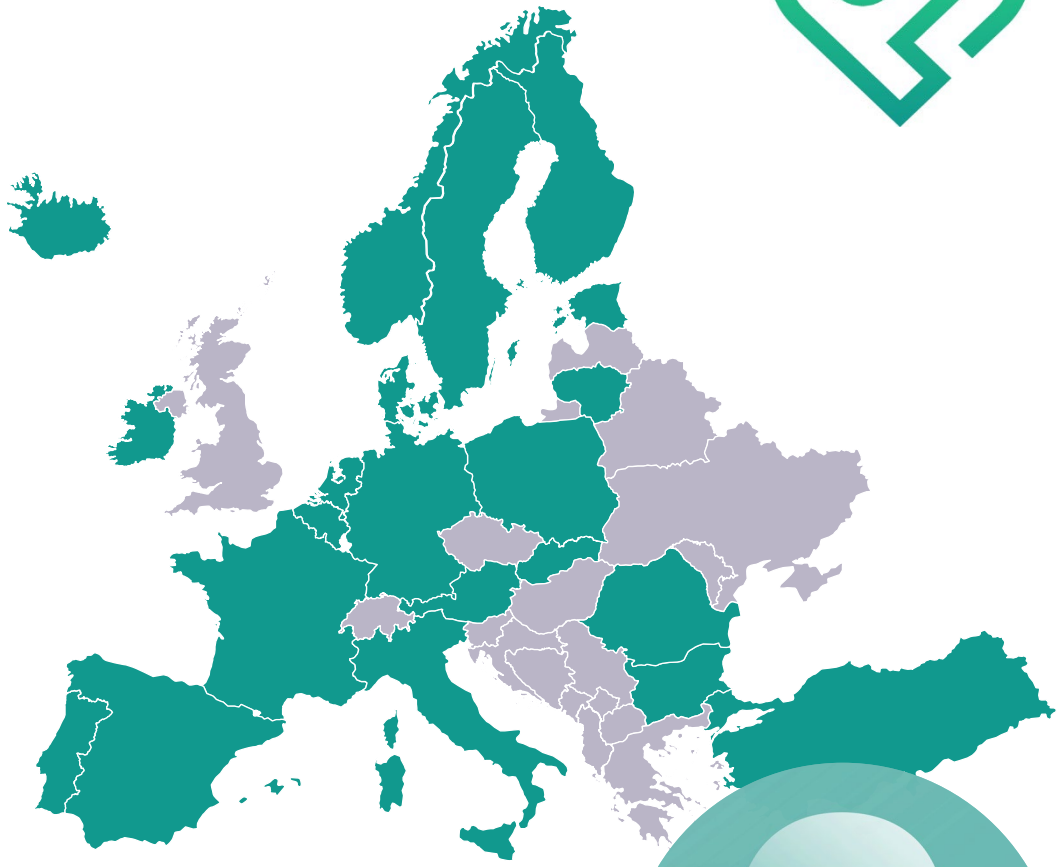

Co-funded by the European Union

Co-funded by the European Union. Views and opinions expressed are how[illegible] only and do not necessarily reflect those of the European Union or Eur[illegible] Agency (REA). Neither the European Union nor the granting authority can [illegible] them.

1. Background: FutureFoodS Partnership

- FutureFoodS - European partnership for a sustainable Future of Food Systems
  https://www.futurefoodspartnership.eu/
- 86 partners from 29 countries
  (funding organisations, research performers)
- Envisioned runtime mid 2024-2034
- Variety of activities

→ 6 Co-funded calls planned

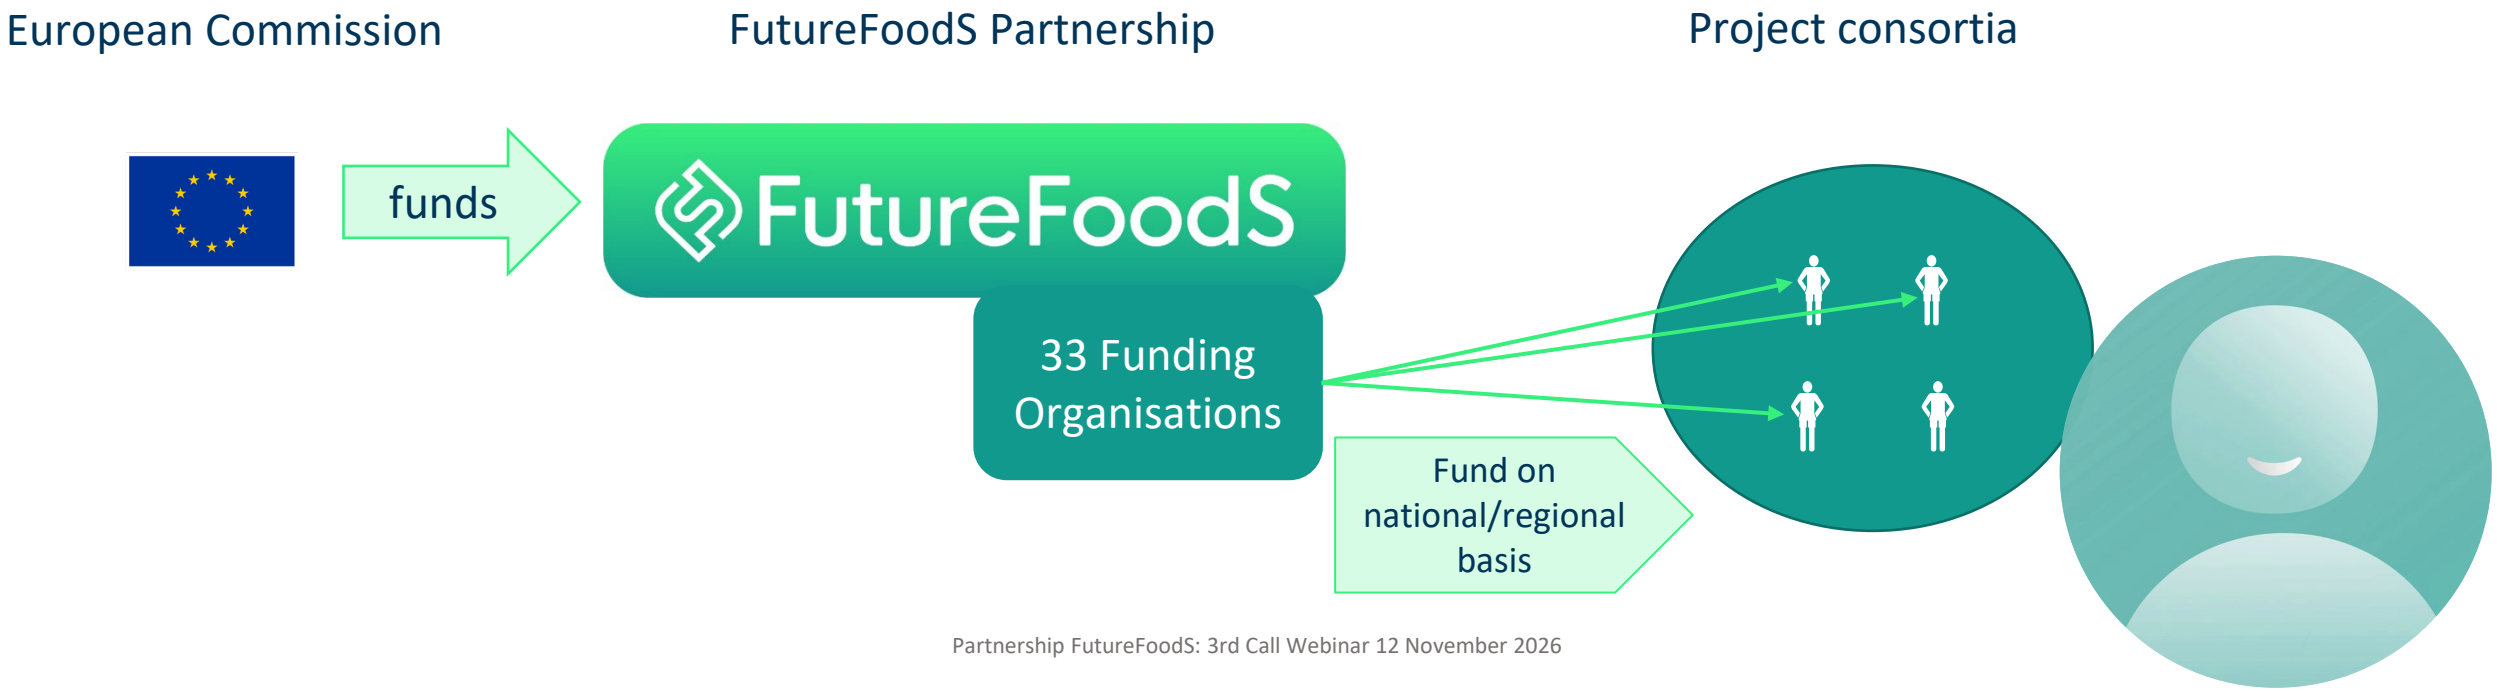

Co-funded by the European Union

Coord: ANR, the French National Research Agency

Co-coord: BLE, the German Federal Office for Agriculture and Food

1. Background: FutureFoodS Partnership

- Joint transnational funding scheme, co-funded by the European Commission

Webinar outline

1 Background:
FutureFoodS Partnership

2 Essential:
Food Systems Approach

3 Call:
Scope, Topics and
Project types

4 Call:
Process and Criteria

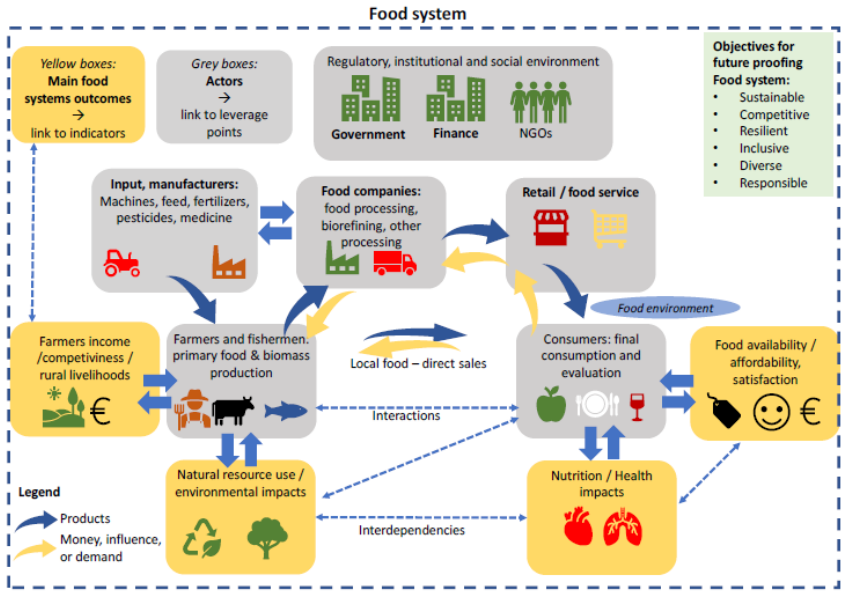

5 Submission tool

2. Essential: The Food System Approach

- What is the Food System?

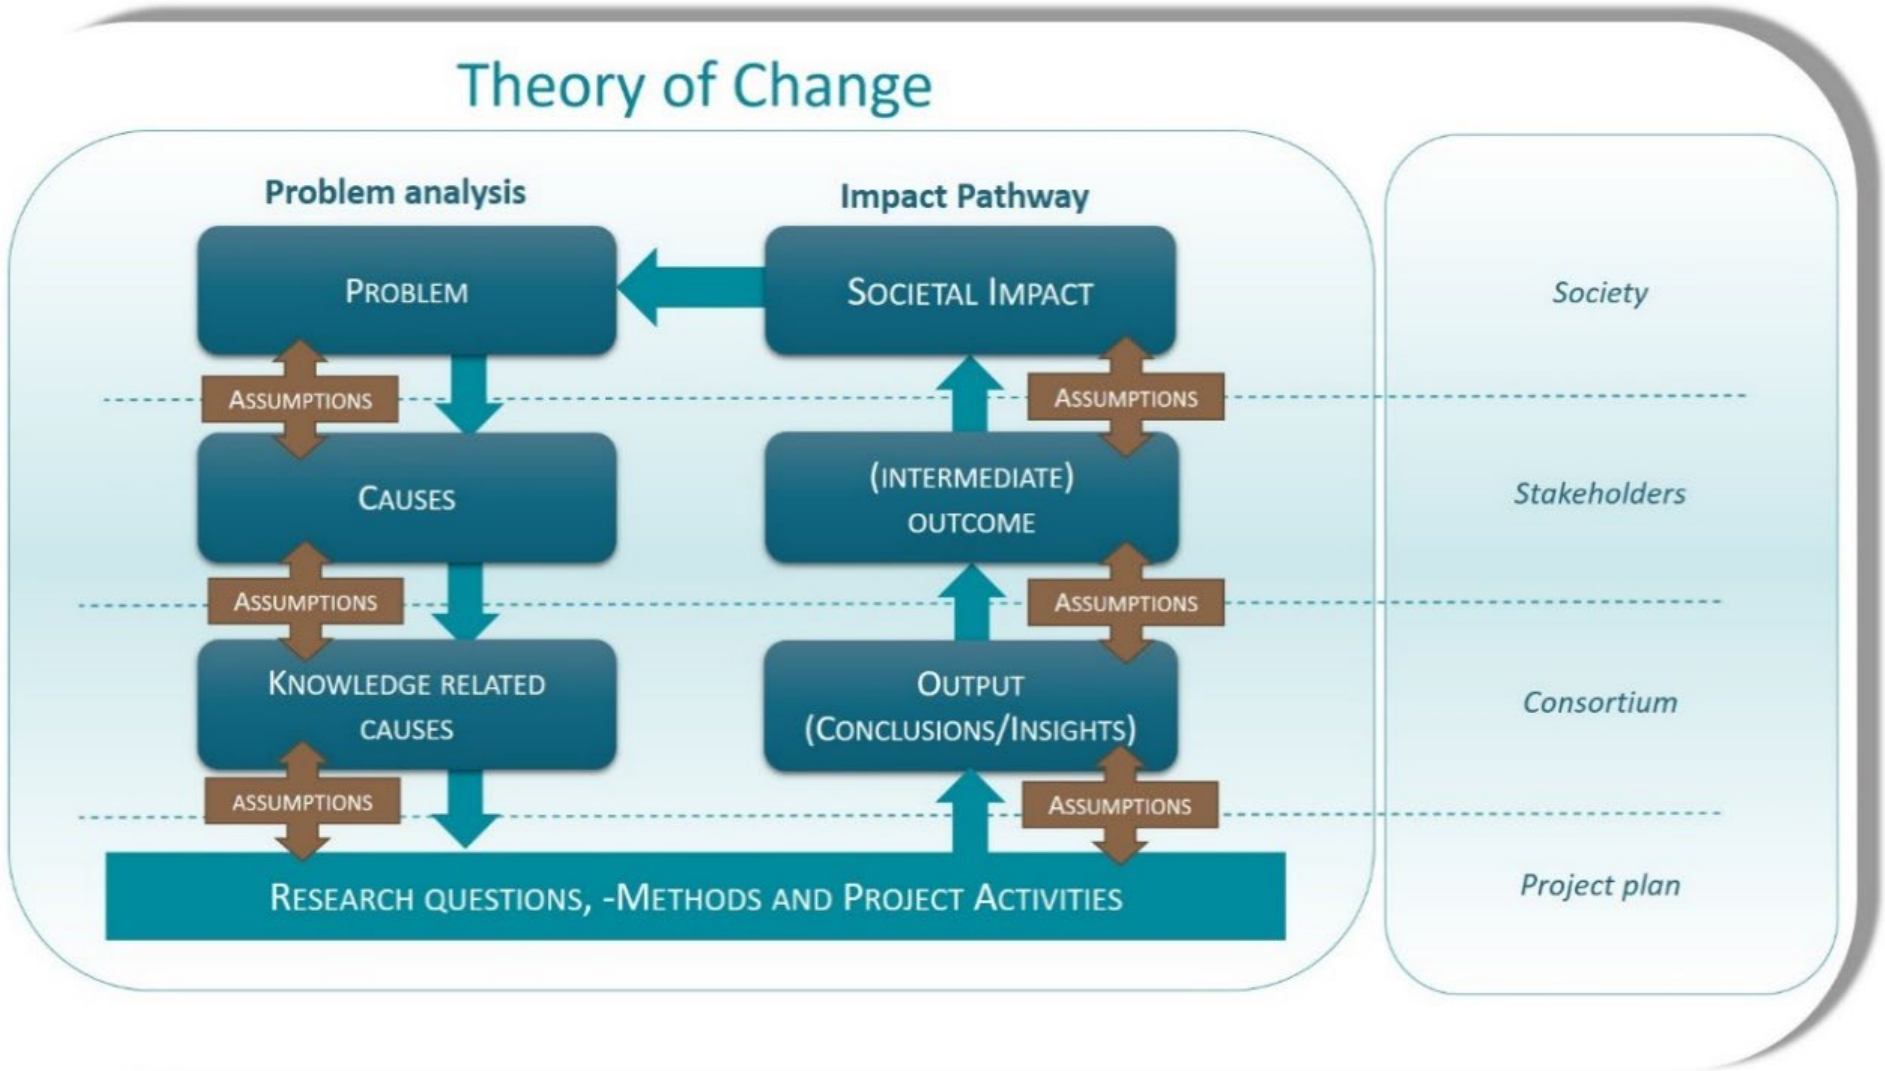

"a system that *embraces all elements and activities* that relate to production, processing, distribution and marketing, preparation and consumption of food, and acknowledges the *interactions* between natural resources/ecosystems services, primary food, food processing, packaging, logistics, marketing, retail, food services, consumption and waste management/recycling and the *many feedback loops* between them, which together defines the degree of complexity"

- A systems approach offers a holistic view on complex problems and acknowledges interdependencies within the systems

Halberg, Westhoek, 2019

2. The Food System Approach and Theory of change

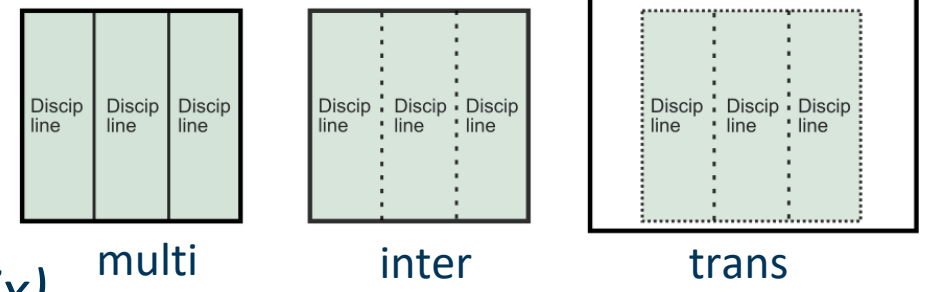

2. Essential: The Food System Approach

→ What does this mean in practice for your proposal?

Guiding elements for FutureFoodS projects

- ✓ transformative perspective
  (solution- and impact-driven R&I; context setting, theory of change)
- ✓ Inter- and transdisciplinarity
  (various disciplines and fields, project specific)
- ✓ Multi-stakeholder engagement
  (diversity, relevance/ applicability, quadruple helix)
- ✓ Sustainability
  (3 dimensions, project specific, towards sustainable Food Systems)

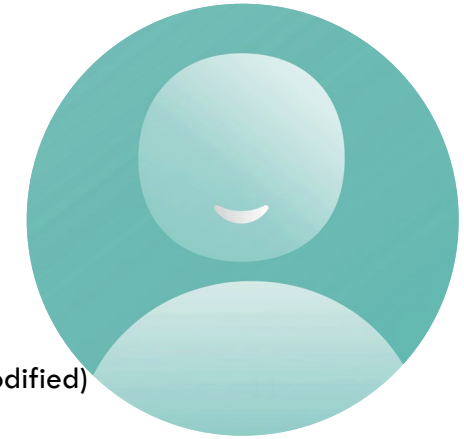

Figure: Broerse, 2018 (modified)

2. Essential: The Food System Approach

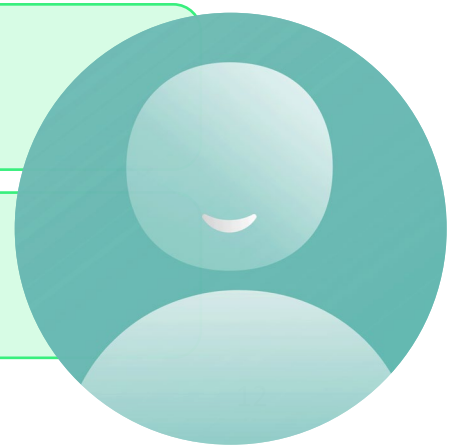

The guiding elements:

- affect the composition of consortia and the R&I content
- will be evaluated
- will be followed-up in the runtime of the projects
- direct implications on the proposal structure

Please consider in your proposal:

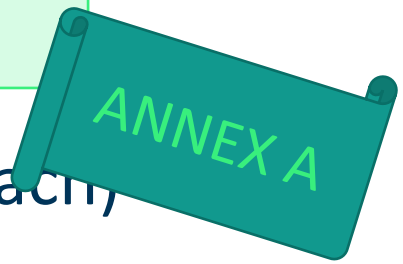

Statement Food System Approach

Project description > Impact Plan (based on Theory of Change)

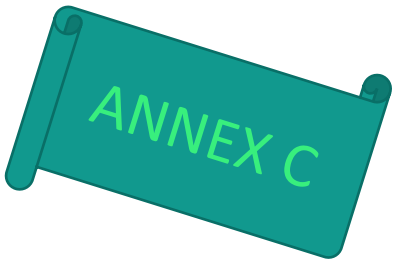

2. Essential: The Food System Approach

Project description > Impact Plan (based on Theory of Change)

- Annex A provides background information (impact plan approach)
- **Impact plan** has 2 parts:
  1. Problem and context analysis *(pre-proposal)*
  2. Impact Plan: including impact pathway, strategic planning with regard to consortium and interactions *(full-proposal)*
- Structure of the Impact Plan is proposed in the Proposal templates with pre-given subheadings

Project description (following an impact plan)

1. Problem and context analysis:

this part shall reflect on the impact-driven achievements that are relevant and necessary to address the underlying causes and close existing knowledge gaps. The following subheadings are not mandatory but recommended:

- Problem analysis (main aim, underlying causes and challenges, stakeholders, actors and factors determining the context, knowledge gaps)
- Assumptions (underlying hypothesis in relation to the state-of-the art and novelty)
- Relevance (relation to the theme and aims of the call, transnational added value)
- Intended Impact (ambitions, societal, environmental, industrial, policy impact etc.)

Project description (follow… …plan)

Full-proposal only!

2. Impact Plan

Impact pathway: is the visualisation of the change process and should specify the expected project outcomes, outputs and subsequent assumptions. The following subheadings are not mandatory but recommended:

- Outcomes (changes in behaviour, relationships, actions and activities of stakeholders resulting from the exchange of knowledge; who, what, where, when)
- Output (knowledge and insights resulting directly from the research/ expected results and which are necessary to deliver the outcomes described earlier)
- Assumptions in Impact pathway

Consortium and interactions: provide information about who will produce knowledge and how using a strategic activity planning. Take care not to repeat the work package description as this is provided separately under Research Plan (see below)**.** The following subheadings are not mandatory but recommended:

- Consortium (description of the collaboration in the consortium, co-design and co-creation, previous activities, complementarity and roles)
- Interactions (which productive interactions, such as stakeholder engagement, communication, monitoring, capacity strengthening etc. will lead to knowledge development and validation in line with the impact pathway)
- Project governance and management (including also communication and monitoring)
- Risk management and contingency planning

Your FutureFoodS proposal

3. Objectives of the Partnership

Fund transnational teams that develop new knowledge and innovative solutions, unlocking Food Systems transformation across Europe by 2050

- environmentally friendly,
- socially secure and fair,
- economically viable,
- healthy and safe food.

3. What is within our scope?

- Change the way we **eat**
- Change the way we **process** and supply food
- Change the way we **connect** with food systems
- Change the way we **govern** food systems

Food system approach centered around post-harvest activities

Complementary to other partnerships

3. Scope – key limitations

Projects within the Partnership shall focus on post-harvest/production

Primary production(on land and sea/water), such as growing food, agricultural production and other specific aspects related to it, as well as diseases related to nutrition and lifestyle are not in focus in this partnership.

These aspects are covered in other Horizon Europe partnerships.

However, dependencies and impacts related to these aspects may adressed within the scope of the call, if embracing a food systems approach.

FutureFoodS 3rd Call in a nutshell

GETS - Getting Everyone Together for Sustainable food systems: empowered consumers, innovative sustainable products and trusted value chains

- 33 Funding Organisations from 20 countries
- ~39 Mio Euro

ANNEX B and I

3 TOPICS

RESEARCH

1. Trusted and transparent sustainable food value chains
2. Consumer agency and enabling food environments for healthy, safe and sustainable food practices
3. Innovative processing for sustainable, safe and nutritious food products

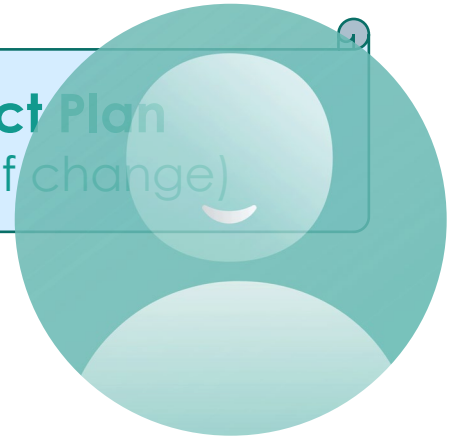

INNOVATION

2 Project types

Guiding elements for FutureFoodS projects (Food Systems Approach)

- ✓ transformative perspective
- ✓ Inter- and transdisciplinarity
- ✓ Multi-stakeholder engagement
- ✓ Sustainability

Impact Plan
(theory of change)

FutureFoodS 3rd Call: Topics

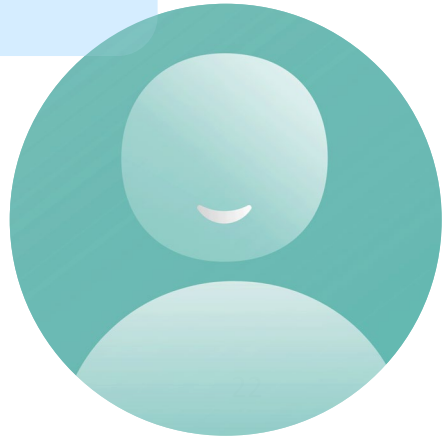

1. Trusted and transparent sustainable food value chains

Trust, transparency and sustainability are essential enablers of resilient food value chains. Proposals should address challenges related to certification, traceability, labelling, sustainable procurement, fairness, and cooperation across food value chains, while exploiting the potential of digital tools and data-driven solutions. Particular attention should be given to strengthening consumer trust and fostering producer-consumer reconnection through innovative and transparent food value chains.

Subtopic 1a
Certification, traceability and digital transparency

Subtopic 1b
Procurement and fair value distribution

Subtopic 1c
Producer- consumer reconnection

FutureFoodS 3rd Call: Topics

2. Consumer agency and enabling food environments for healthy, safe and sustainable food practices

Empowering citizens to make healthy, safe, and sustainable food choices requires both individual agency and supportive food environments. Proposals should address challenges related to food literacy, food safety perception, access and affordability, inclusiveness, and behavioural change while fostering collaboration among relevant stakeholders. The topic aims to strengthen the conditions that enable sustainable food practices across different social contexts.

Subtopic 2a
Effective collaboration strategies and food environments

Subtopic 2b
Inclusivity and accessibility

Subtopic 2c
From awareness to knowledge and practice

FutureFoodS 3rd Call: Topics

3. Innovative processing for sustainable, safe and nutritious food products

Innovation in food processing can contribute to more sustainable, safe and nutritious food systems. Proposals should address product diversification, alternative food sources and naturalness-preserving processing technologies while considering aspects related to nutritional quality, food safety, economic viability and consumer acceptance. Particular attention should be given to solutions with the potential for uptake and wider application across food systems.

Subtopic 3a
Innovative processing and alternative sources and ingredients

Subtopic 3b
Ensuring nutritional values and diversity of sustainable food products and diets

Subtopic 3c
Scale-up and uptake of innovations for sustainable food products

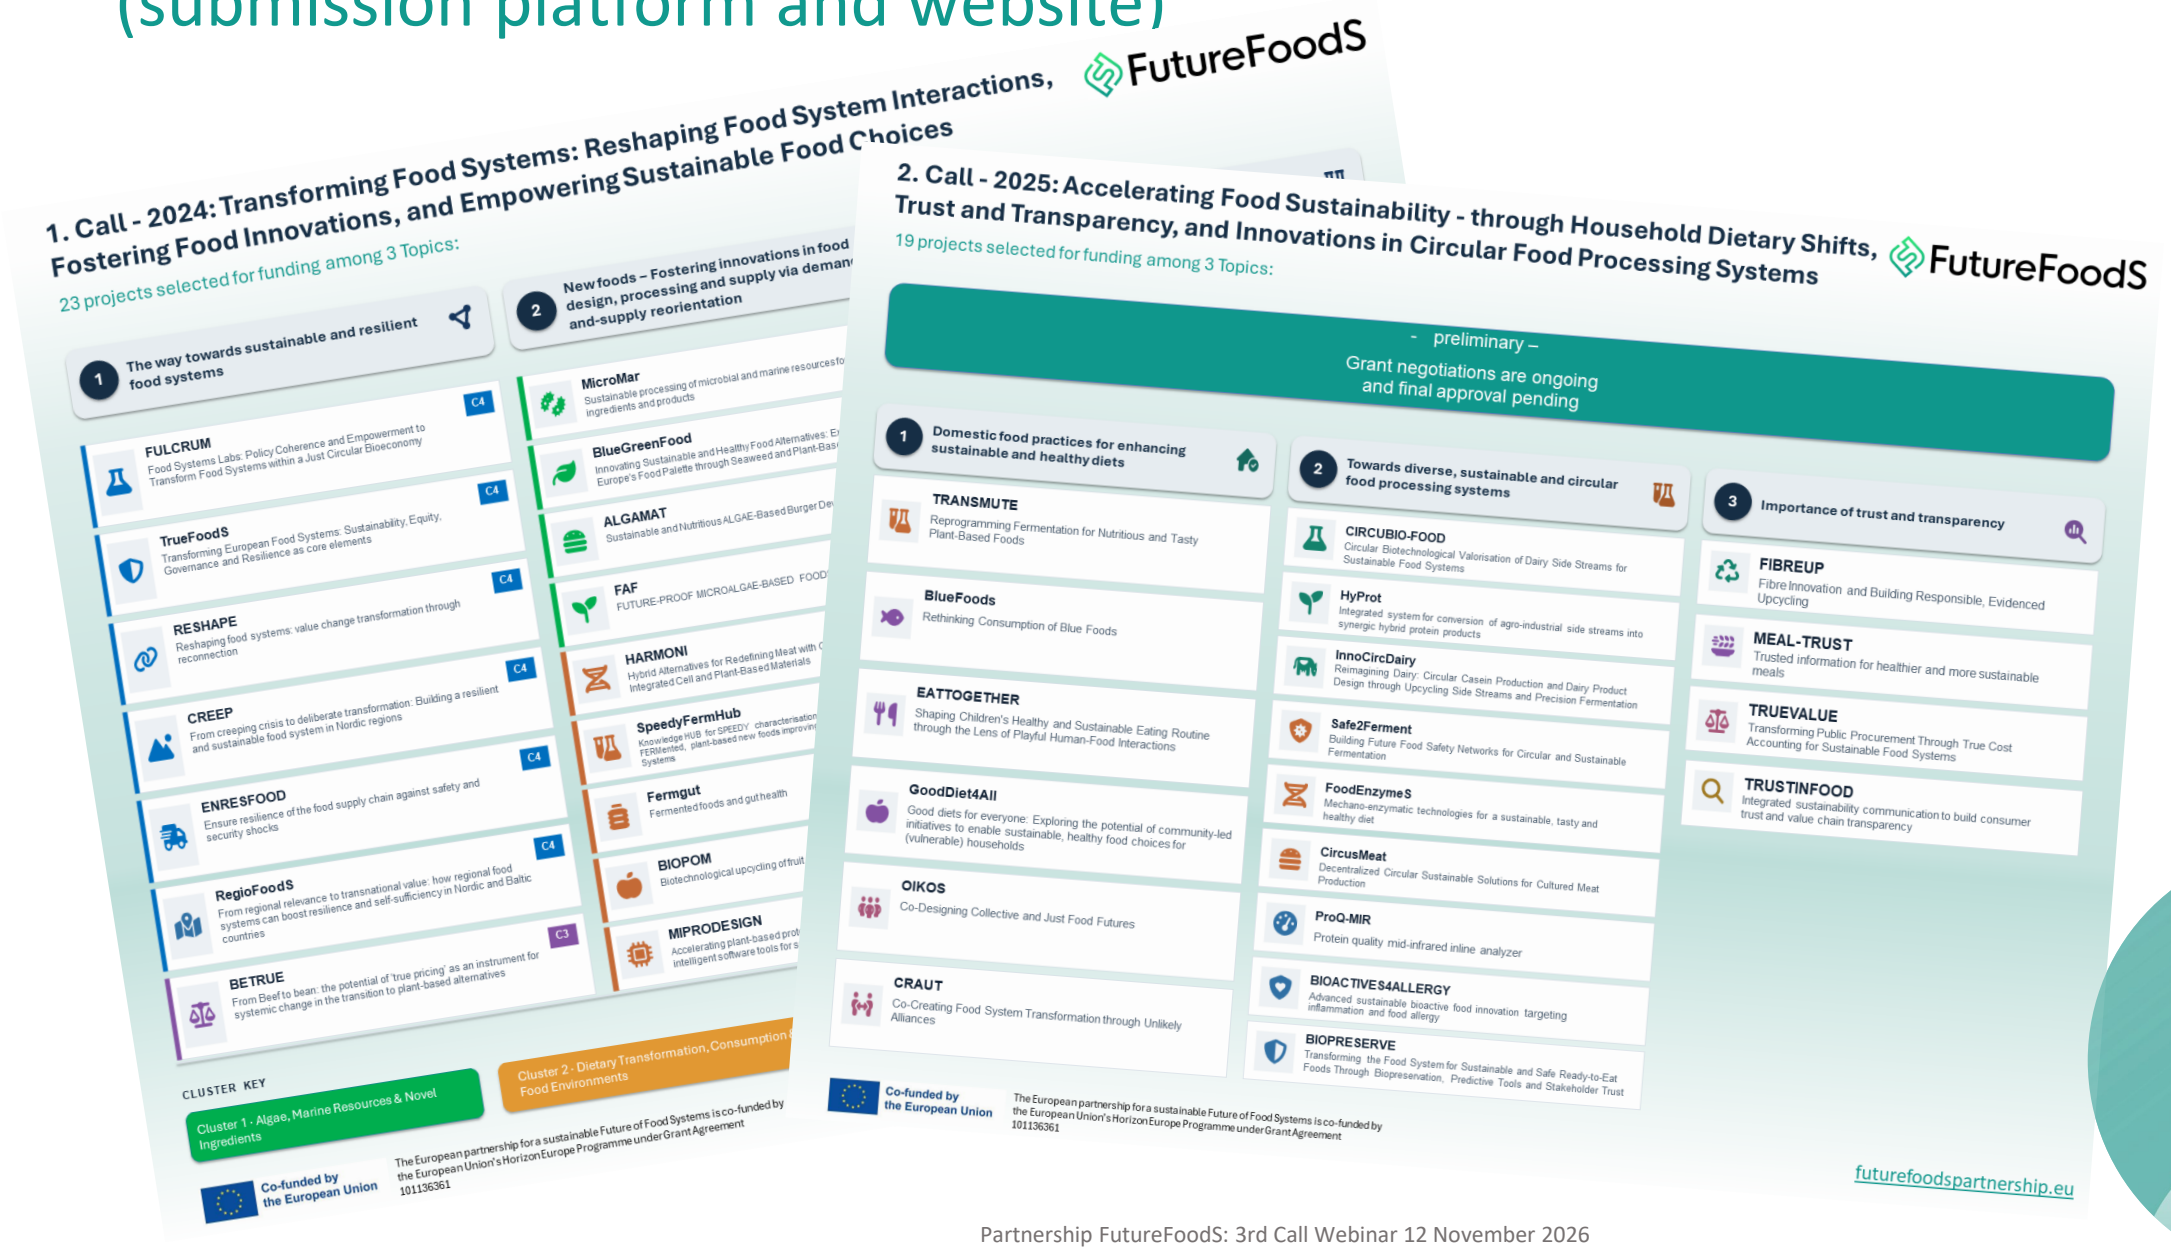

FutureFoodS 3rd Call: Topics

- Each proposal has to adress one topic
- At least one of the subtopics should be targeted, combinations are possible
- Avoid duplication of research conducted under previous FutureFoodS projects → section in proposal to explain complementarity, added value and ptoential synergies

→ Have a look at the portfolio overview
(submission platform and website)

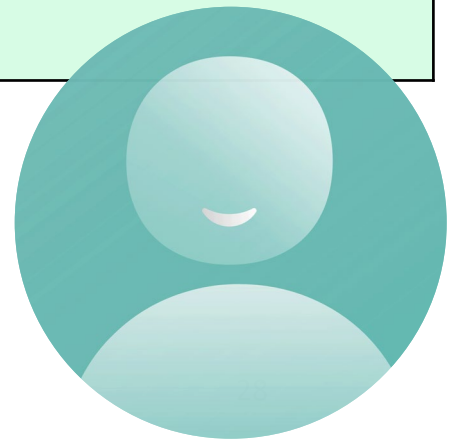

Project types

- 2 Project types: **Exploratory Research Project** or **Accelerating Innovation Project**
- Both types can be applied to all 3 topics
- Both types need to follow the systems approach and guiding elements
- The project types will be evaluated separately
- Be aware that not all funders support all topics or all project types!!!

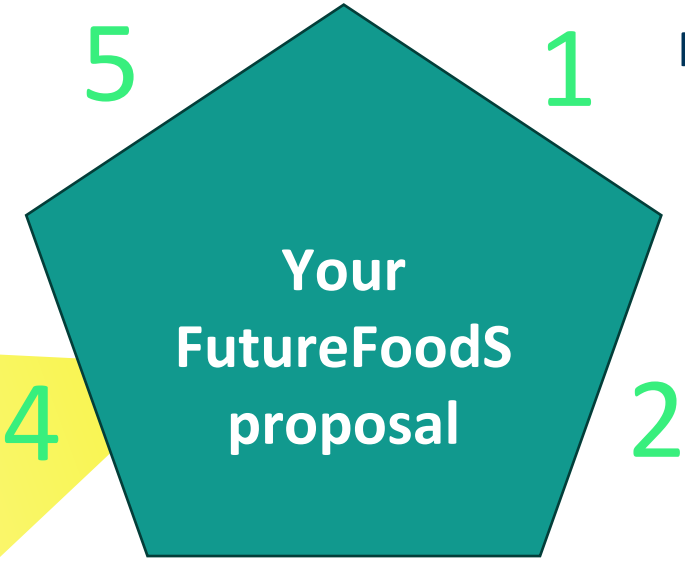

Project types

	Exploratory Research	Accelerating Innovation
Concept	Basic and/ or applied research focused on knowledge co-creation, mainly researcher-led (comparable to EC- RIA)	Focused to translating scientific knowledge into new practices and smart solutions in industry, public sector or society, clear stakeholder commitment and collaboration with professional practice (comparable to EC- IA)
Foreseen impacts	Develop the state of the art of scientific knowledge laying the ground for an accelerated food system transformation	Increase and develop the adoption and uptake of new sustainable food practices, services, products and processes across Europe
Concretion level	Ideas development and implementing proof of concept	Testing and validating prototypes or pilots that are ready for practical application in real life settings
TRL scale (if applicable)	3-5	6-8

Webinar outline

1 Background:
FutureFoodS Partnership

2 Essential:
Food Systems Approach

3 Call:
Scope, Topics and
Project types

4 Call:
Process and Criteria

5 Submission tool

4. Call Process and Criteria

Call Opening
3 Nov 2026

Pre-proposal Sub-mission (deadline)
13 Jan 2027

Eligibility Check
General and national/regional

Evaluation by IEP
Remotely and Evaluation meeting

Call board meeting
Pre-proposal selection for ful-proposal stage

Feedback to applicants
Mid April 2027

4. Call Process and Criteria

Eligibility Check
General and
national/regional

- Consortia of at least 3 partners (eligible for funding) from 3 different countries
- Coordinator (eligible for funding)
- A person can only act as coordinator (PI) for one proposal
- Individual affiliation in a proposal must be clear
- Balanced sharing of PM (not more than 60% to one country)
- Max project duration 36 months
- Proposals must be in english, complete, respect limits etc.
- Ethics self-assessment is mandatory
- Submission only via submission platform and by the deadline

4. Call Process and Criteria

Eligibility Check
General and
national/regional

- National/regional rules are described in the Annex I
- Please check who and what can be funded and if there are special conditions
- Not all funders fund all topics and all project types (see Call Announcement table 4)
- **Consult your National/Regional Contact Point**

Eligibility is crucial! In Case one partner is not eligible
→ The entire proposal will be rejected

4. Call Process and Criteria

Call Opening
3 Nov 2026

Pre-proposal Sub-mission (deadline)
13 Jan 2027

Eligibility Check
General and national/regional

Evaluation by IEP
Remotely and Evaluation meeting

Call board meeting
Pre-proposal selection for ful-proposal stage

Feedback to applicants
Mid April 2027

4. Call Process and Criteria

Evaluation by IEP
Remotely and Evaluation meeting

- Peer-review evaluation by 3 independent experts per proposal
- Pre-proposal criteria:
  - EXCELLENCE
  - IMPACT
- Scoring 0-5 (threshold 3)
- **Have a look at the criteria description and the supportive questions in the Call Announcement!**

Call Documents - Call Announcement

European partnership for a sustainable Future of Food Systems

Third Joint Transnational Co-funded Call

FutureFoodS Call 2026

GETS - Getting Everyone Together for Sustainable food systems: empowered consumers, innovative sustainable products and trusted value chains

Version 1, 03.11.2026

Call launch: 03 November 2026

Submission platform: https://futurefoods.ptj.de

Webinar for pre-proposal applicants: 12 November 2026, 11:00-12:00 CET

Deadline for pre-proposals: 13 January 2027, 13:00:00 CET

Deadline for full-proposals: 30 June 2027, 13:00:00 CEST

Co-funded by the European Union

Co-funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or European Research Executive Agency (REA). Neither the European Union nor the granting authority can be held responsible for them.

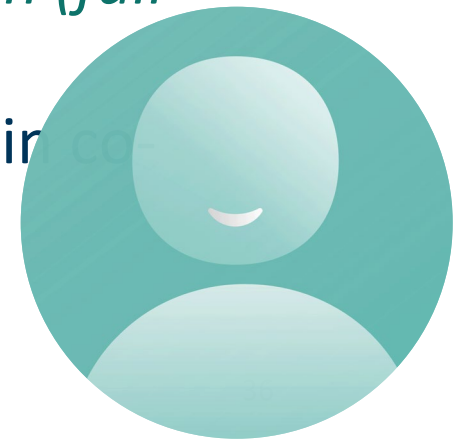

Via Submission platform
FutureFoodS: Call3 PP

Via FutureFoodS Homepage → Opportunities & projects → Funding opportunities
https://www.futurefoodspartnership.eu/funding-opportunities

Brief overview of Call Docs (Annexes)

1. Annex A → Impact Plan
2. Annex B → Overview of National Contact Points/ Regional Contact Points (NCP/RCP)
3. Annex C → Pre-proposal template
4. *Annex D → Full-proposal template (full-proposal only)*
5. *Annex E → Letter of commitment template (full-proposal only)*
6. *Annex F → Data Management Plan (full-proposal only)*
7. *Annex G → Dissemination, Exploitation and Communication Plan (full-proposal only)*
8. Annex H → List of FutureFoodS partners allowed to participate in [illegible] funded projects
9. Annex I → National/ Regional regulations

SUBMISSION PLATFORM

COORDINATOR REGISTRATION

COORDINATOR LOGIN

WELCOME

Welcome Text and info

WELCOME...TO THE SUBMISSION PLATFORM OF THE 3RD FUTUREFOODS CALL FOR TRANSNATIONAL RESEARCH PROJECTS!

Applications for funding within this call can only be submitted through this platform.

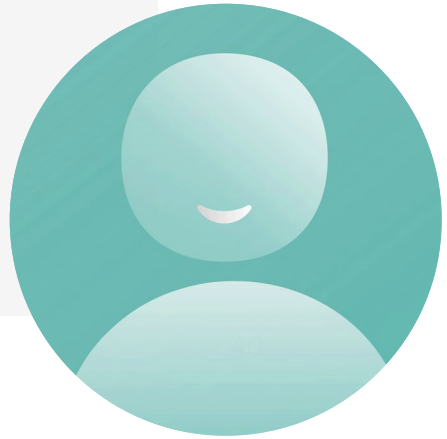

SAVE THE DATE FOR OUR WEBINAR FOR INTERESTED APPLICANTS ON 12 NOVEMBER AT 11:00 (CET).

The connection link can be found in the Call Announcement (p. 20). The webinar is freely accessible.

If you want to register as a coordinator for a transnational research project, please read the **Call Announcement** thoroughly (available for download in the "Call Documents" area). It will ascertain that your planned project fits to the aim of this call. Please note that some topics may not be fundable by some funding organisations. Therefore, please take a close look at the document and its annexes.

Non-coordinating partners of a project will be invited by the respective coordinator to enter their profile data and get access to the automatically generated project fact sheet, which contains the full information about the proposal.

If you have questions or any technical problems with your login or the platform, please don´t hesitate to contact the Call Office.

5. Submission platform: Partnering Tool

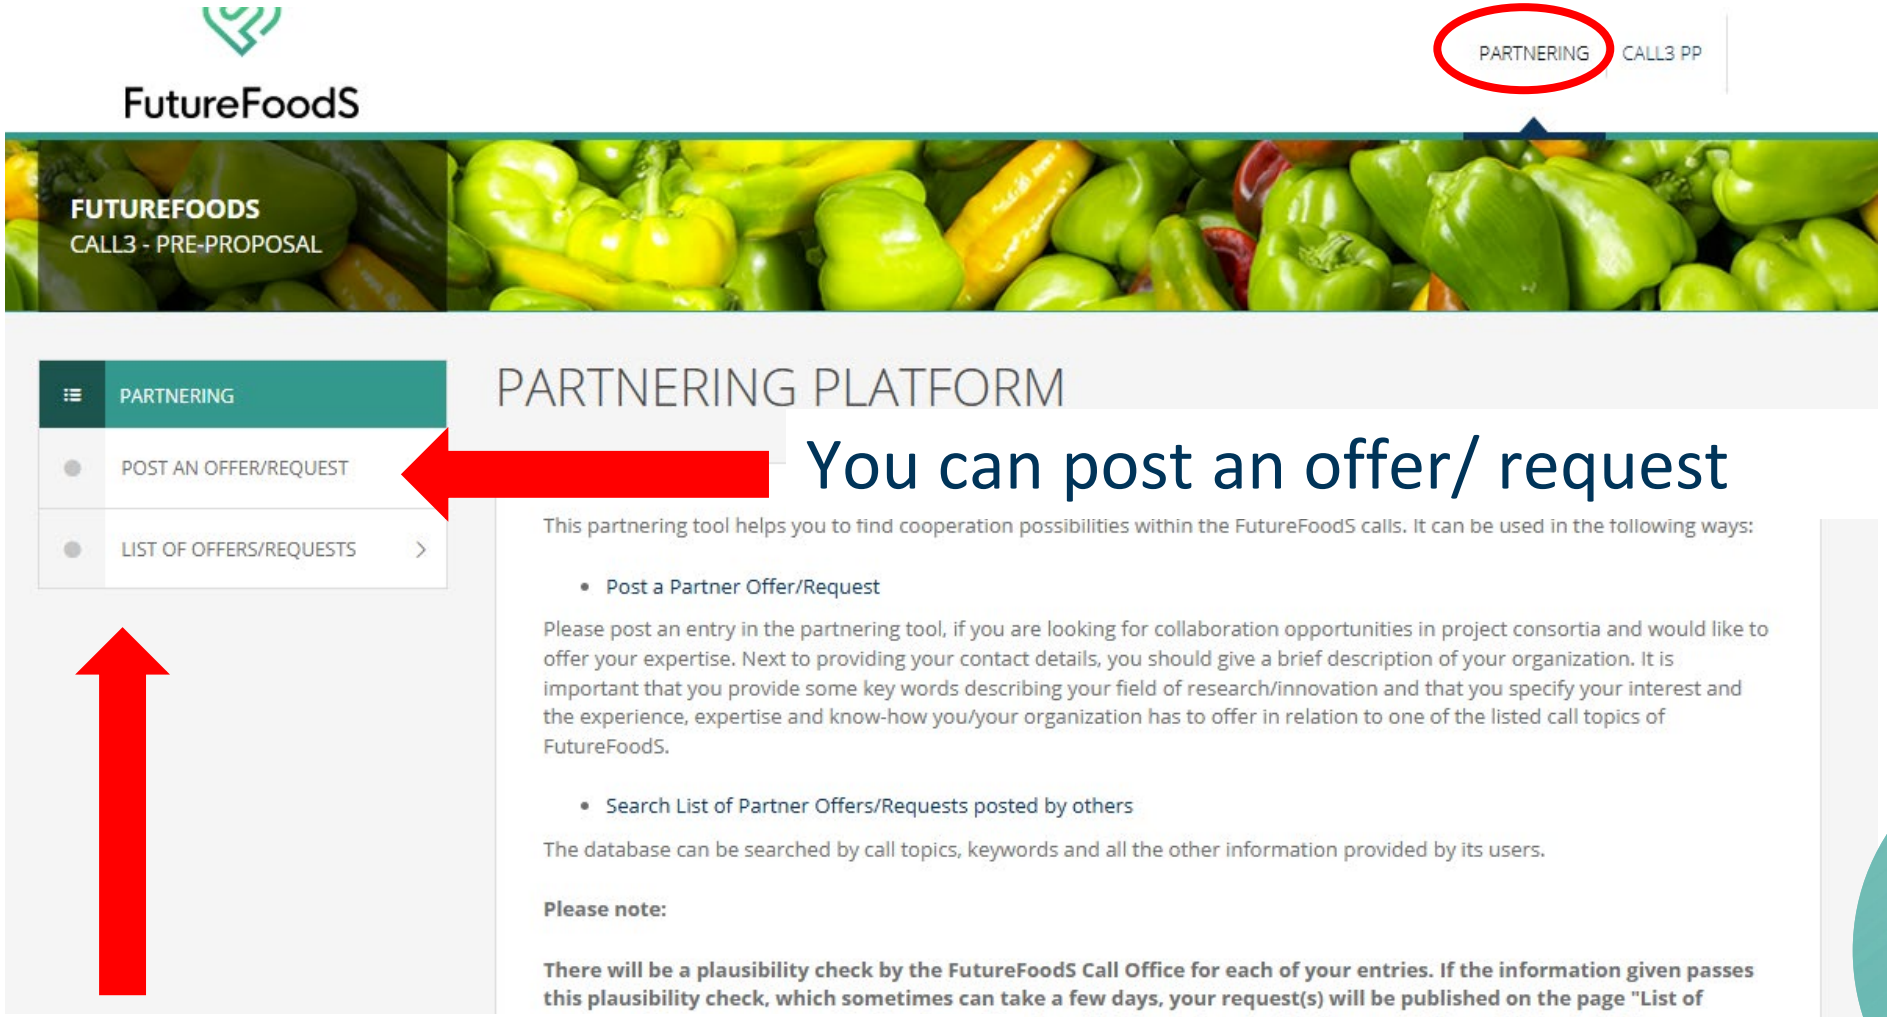

Partnering Tool:
You are looking for partners for a proposal or you want to become a partner in a proposal? Use the Partnering Tool!
Click on „Partnering“ in the upper right corner!
You can post a new offer or search for existing offers!

Once you entered your data and submitted the partner offer, the call office will get an email and check and publish your entry.
This might take a few hours!
Don’t submit multiple times, please be patient.

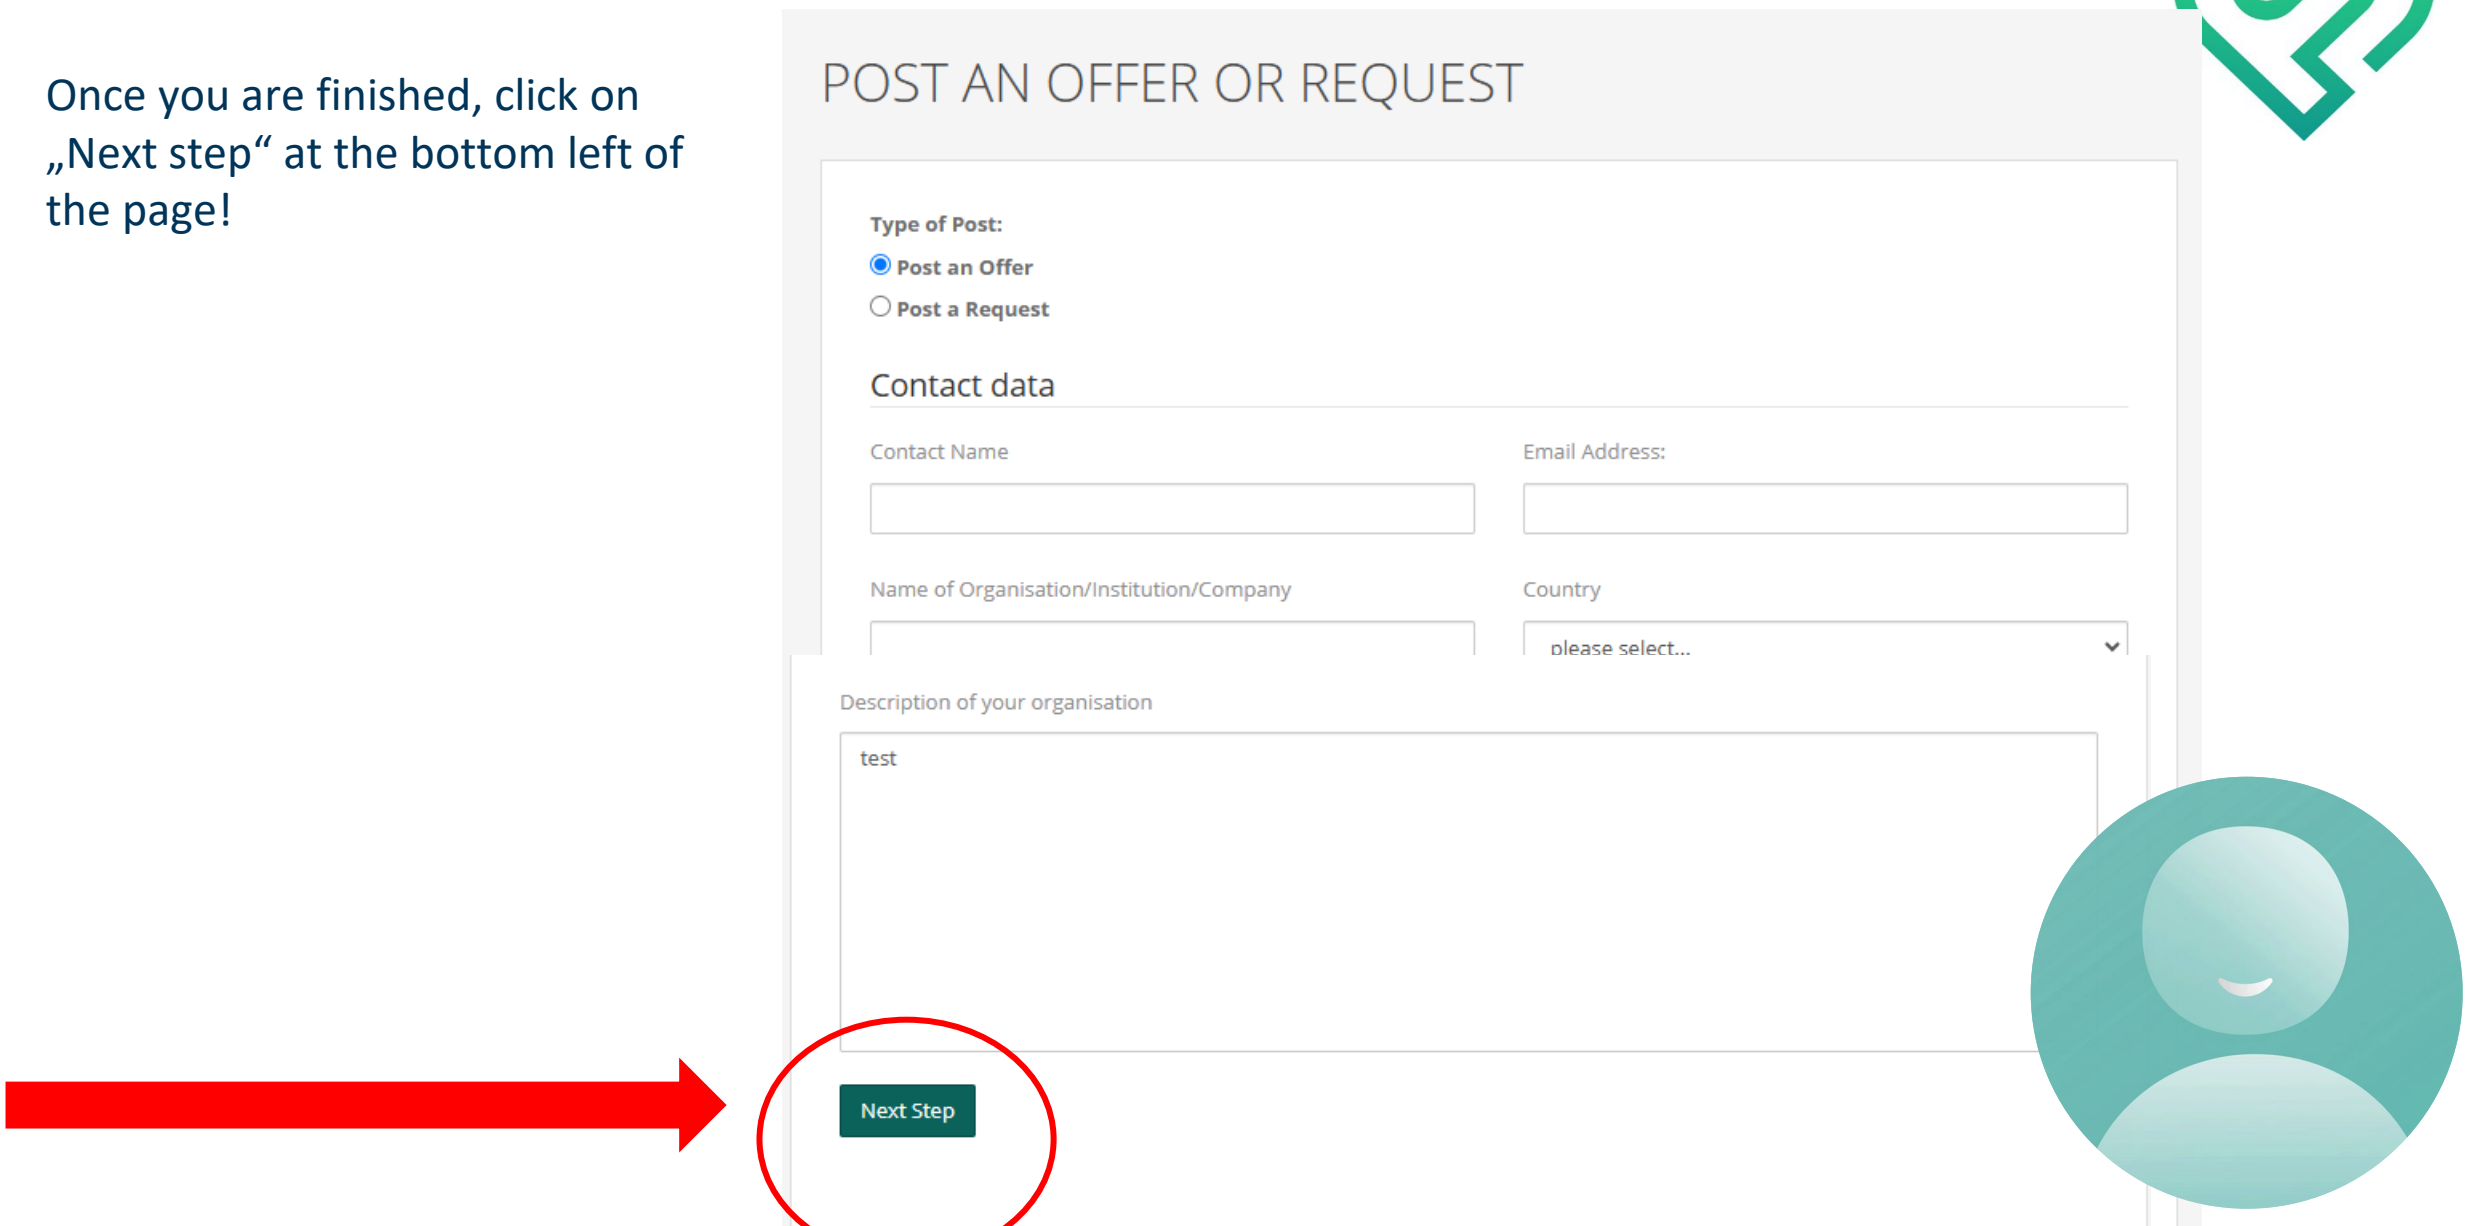

5. Submission platform: Partnering Tool

Or search the existing offers/requests

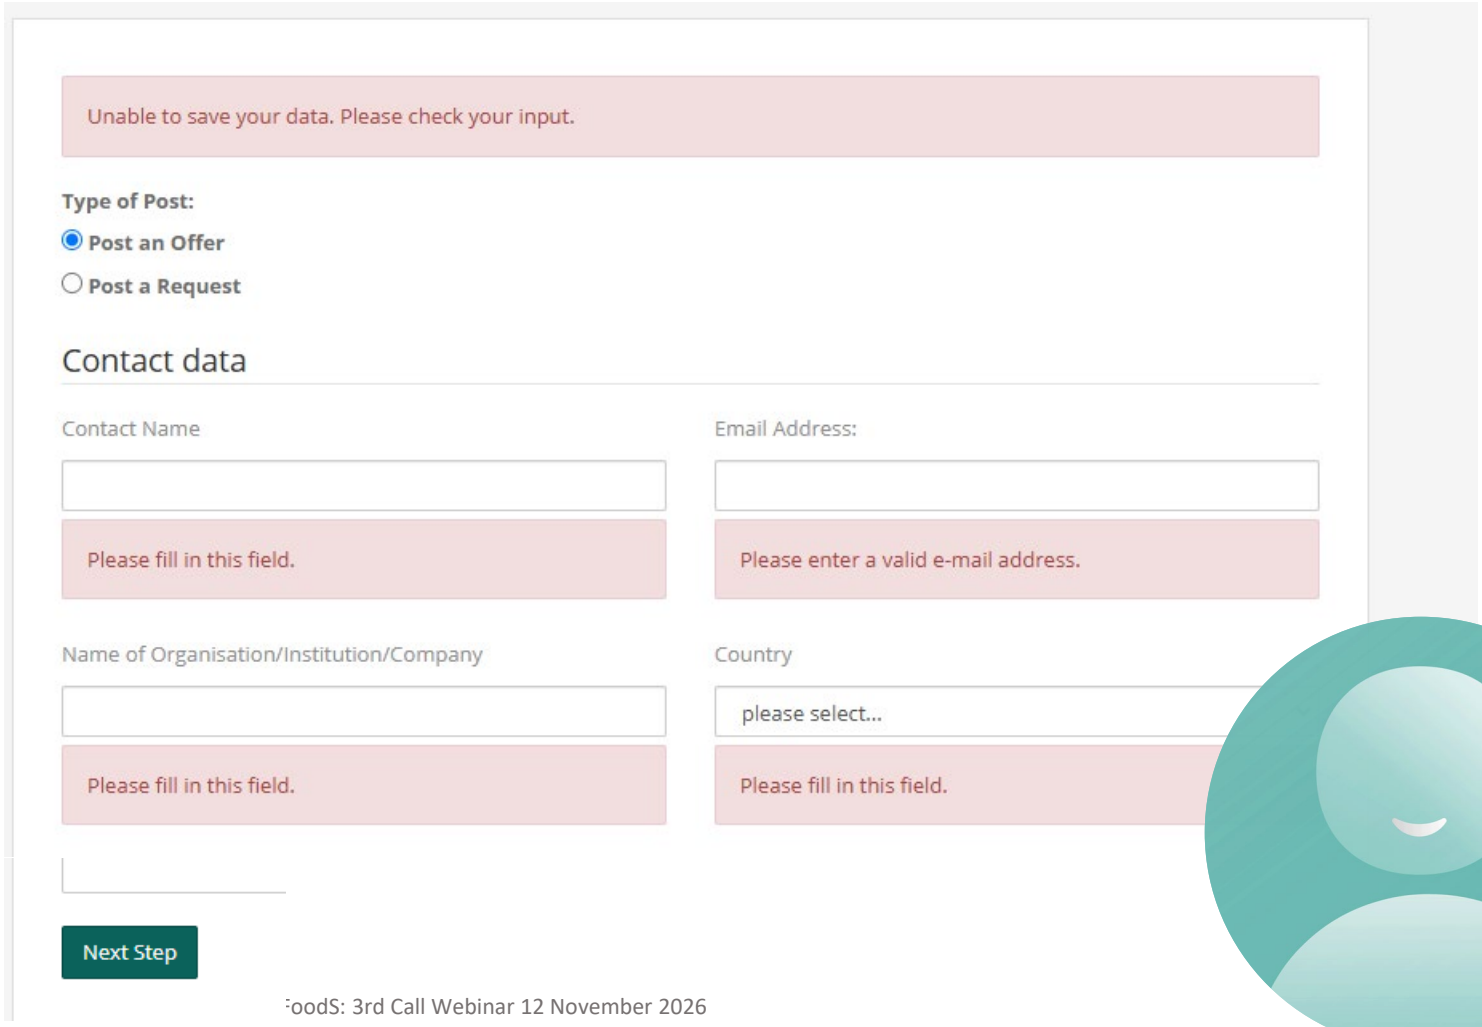

5. Submission platform: Partnering Tool

Once you are finished, click on „Next step“ at the bottom left of the page!

5. Submission platform: Partnering Tool

If you have done a mistake, → error messages occur, read them and **correct** the mistakes, press again „next step“

5. Submission platform: Partnering Tool

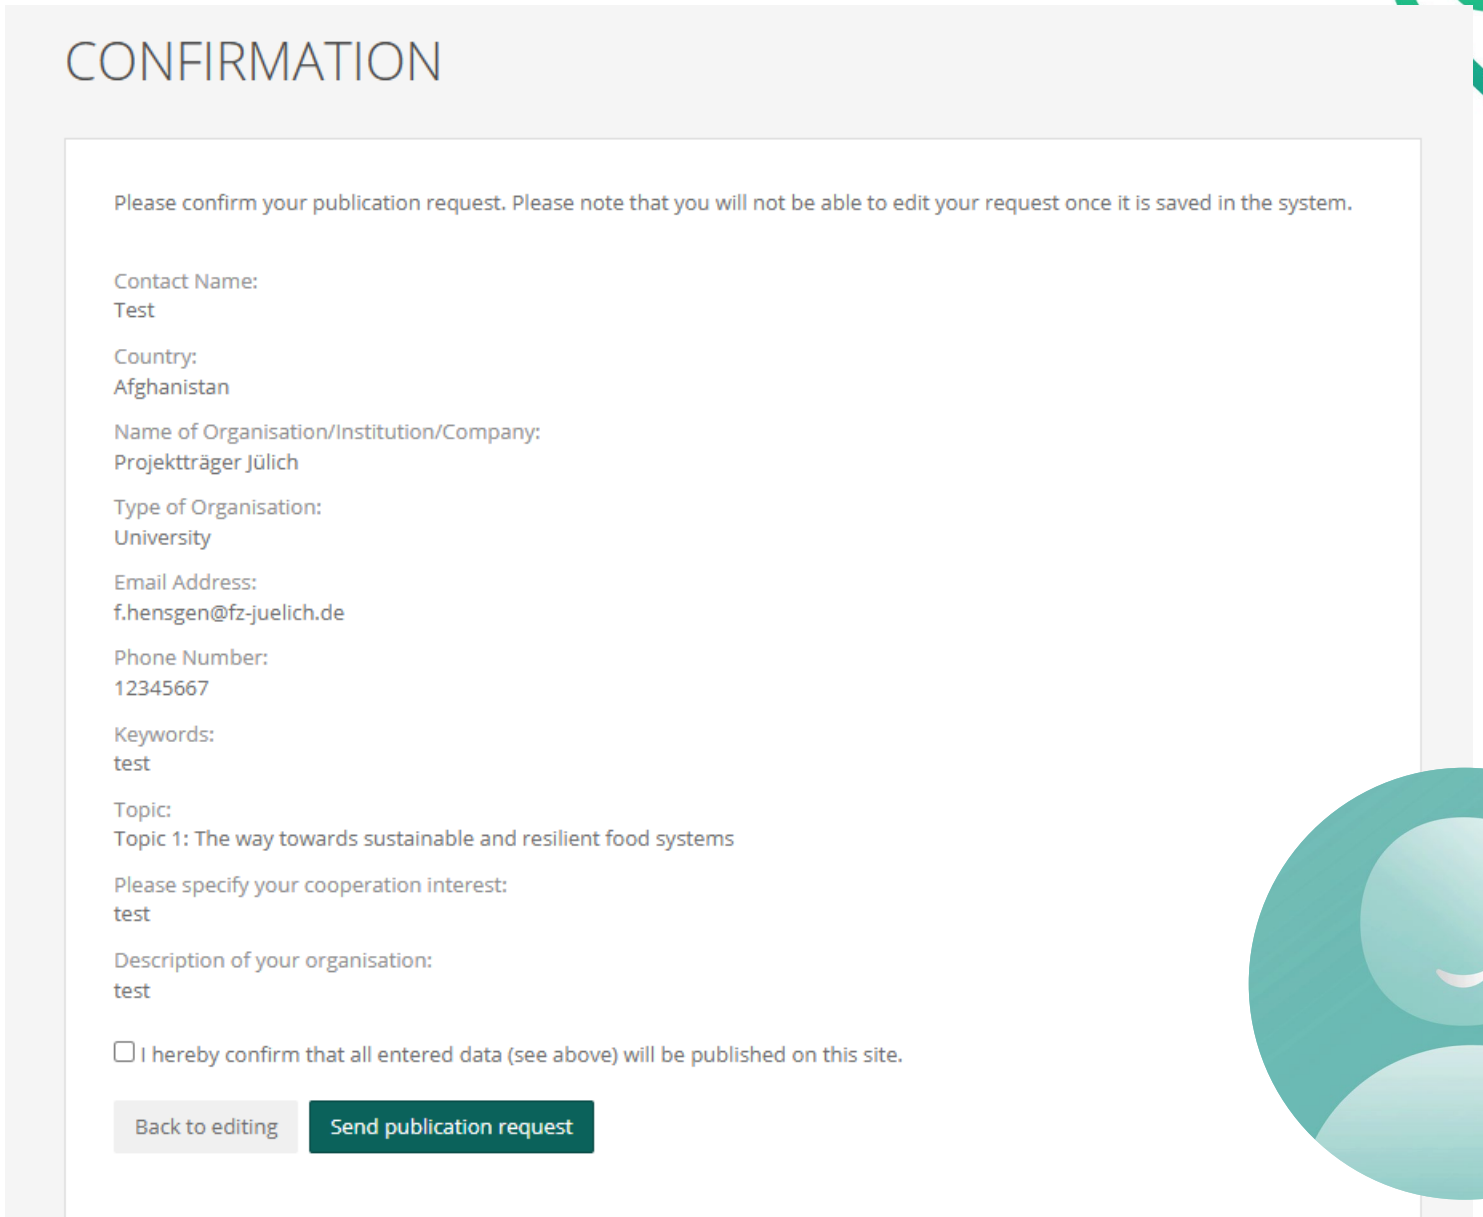

If you have done everything right, a confirmation occurs: please read it. It summarises all your data input.

You can choose to go back to editing, if something needs to be edited.

Please confirm the checkbox below, confirming you are ok with us publishing your data.

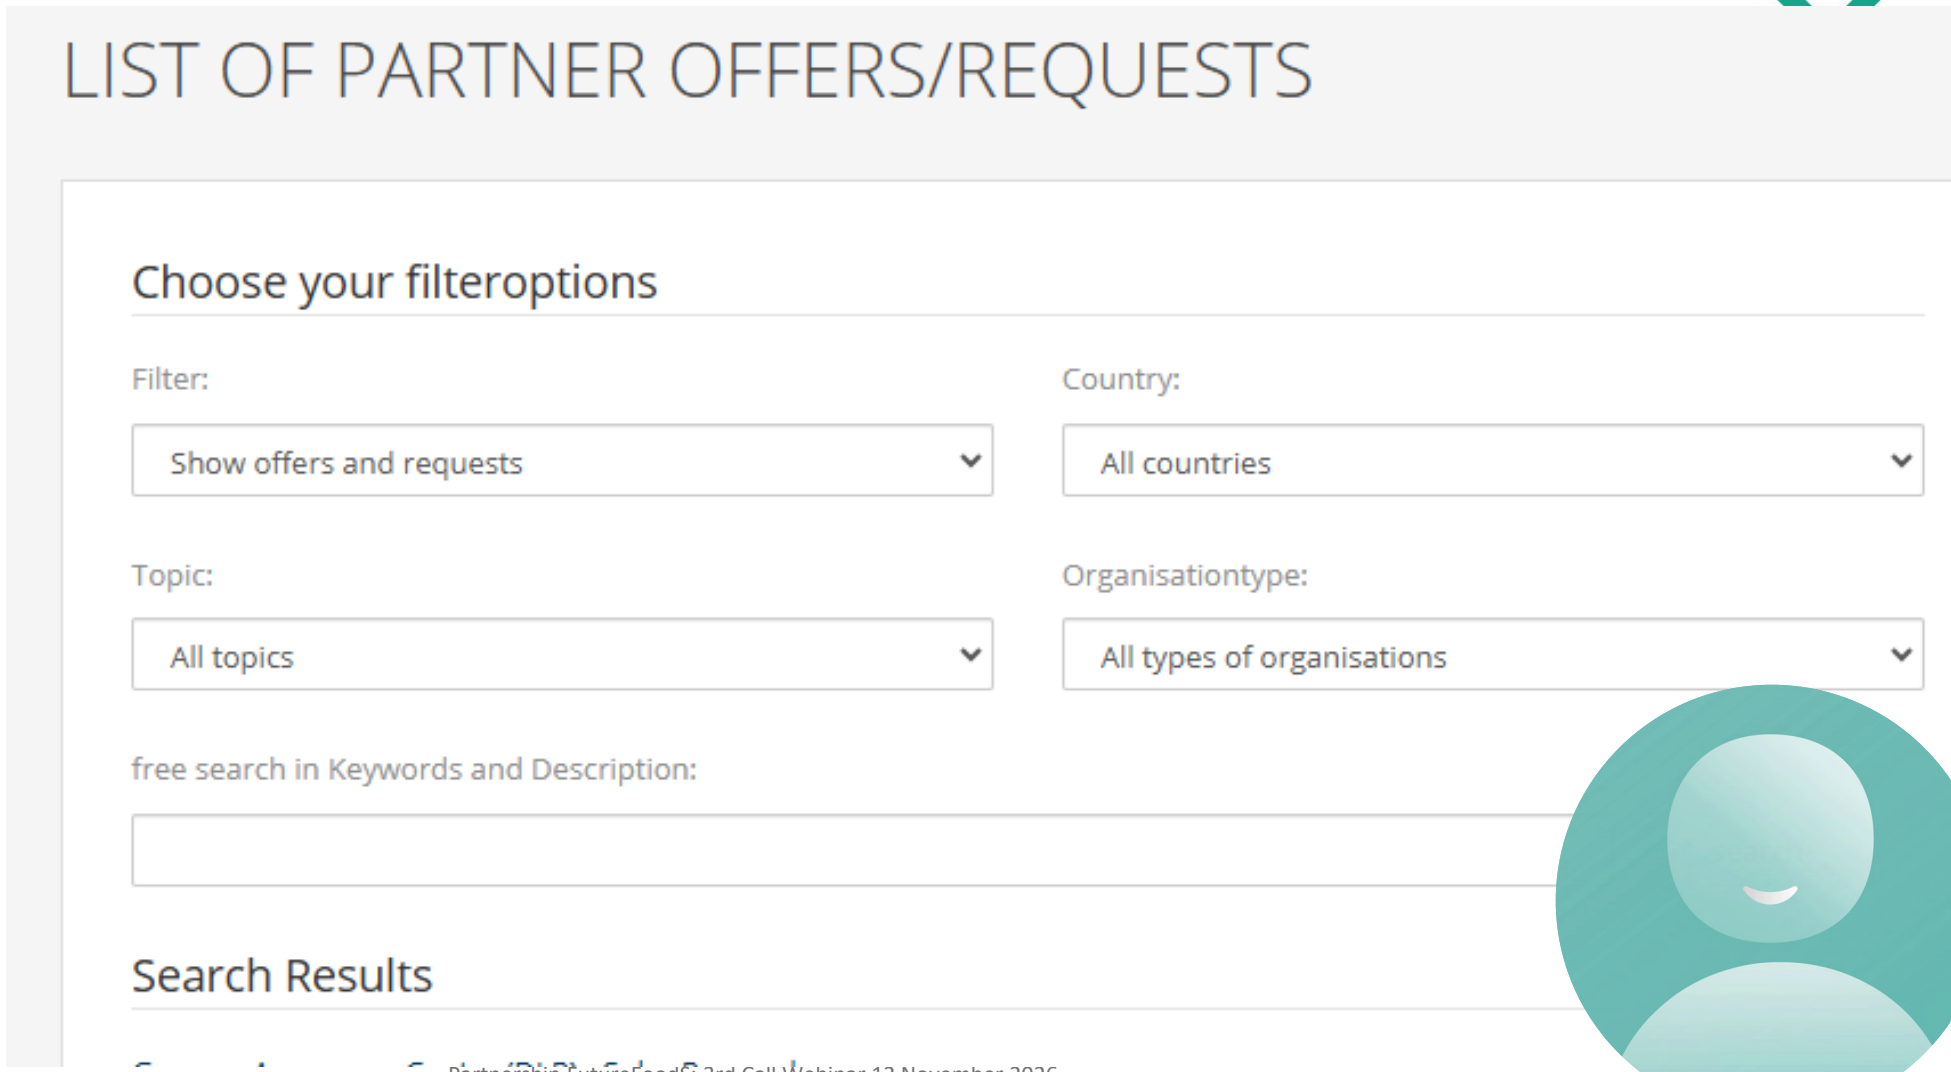

Please click on „Send publication request“ once you are ready.

The call office will get an email and check and publish your entry. **This might take a few hours! Don’t submit multiple times, please be patient** ☺

5. Submission platform: Partnering Tool

You can also search the already existing Partnering Tool entries:
There are filtering and free search options to narrow done your search and find the perfect partner!

5. Submission platform

How to get started: How to submit a proposal?

Go to https://futurefoods.ptj.de/

1.) Register as Coordinator

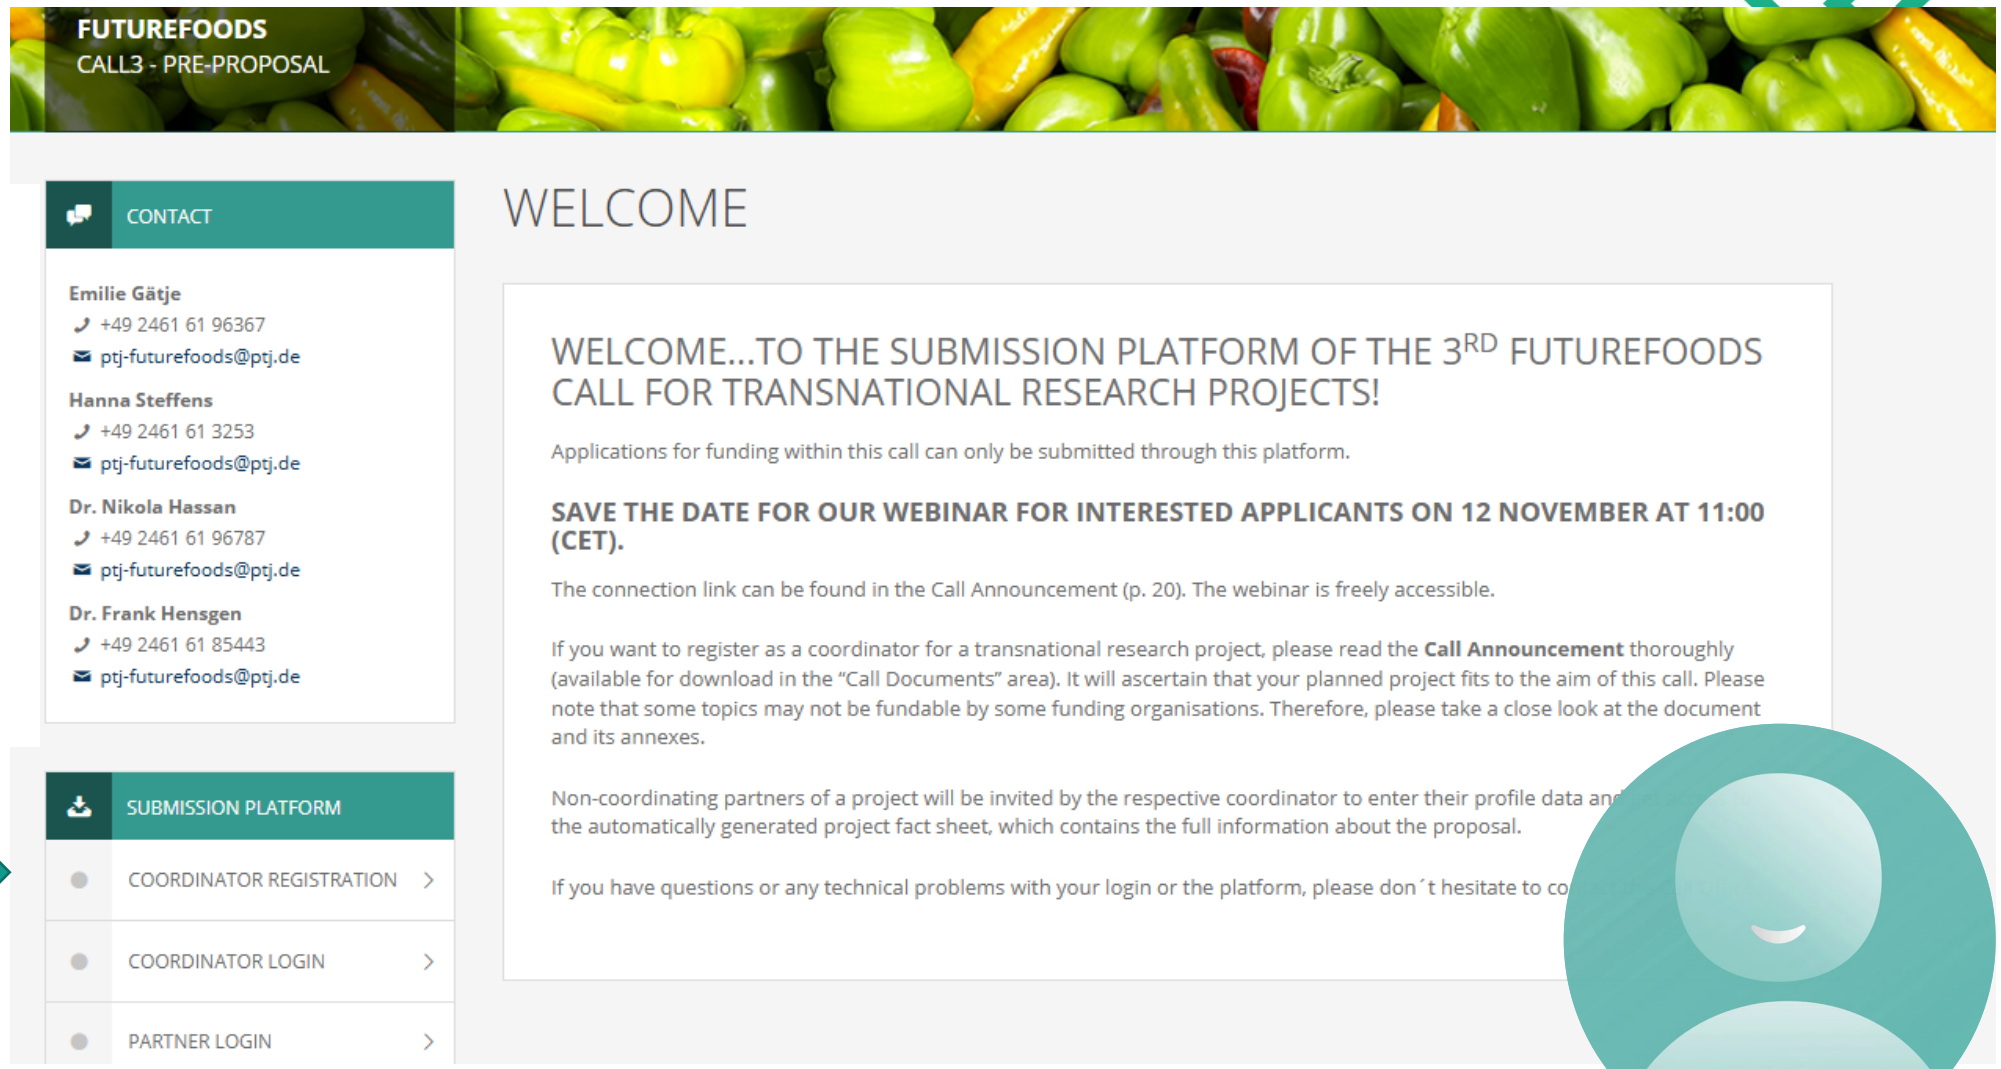

2.) Fill out the basic project data

3.) Invite your Partners

5. Submission platform: How to submit a proposal?

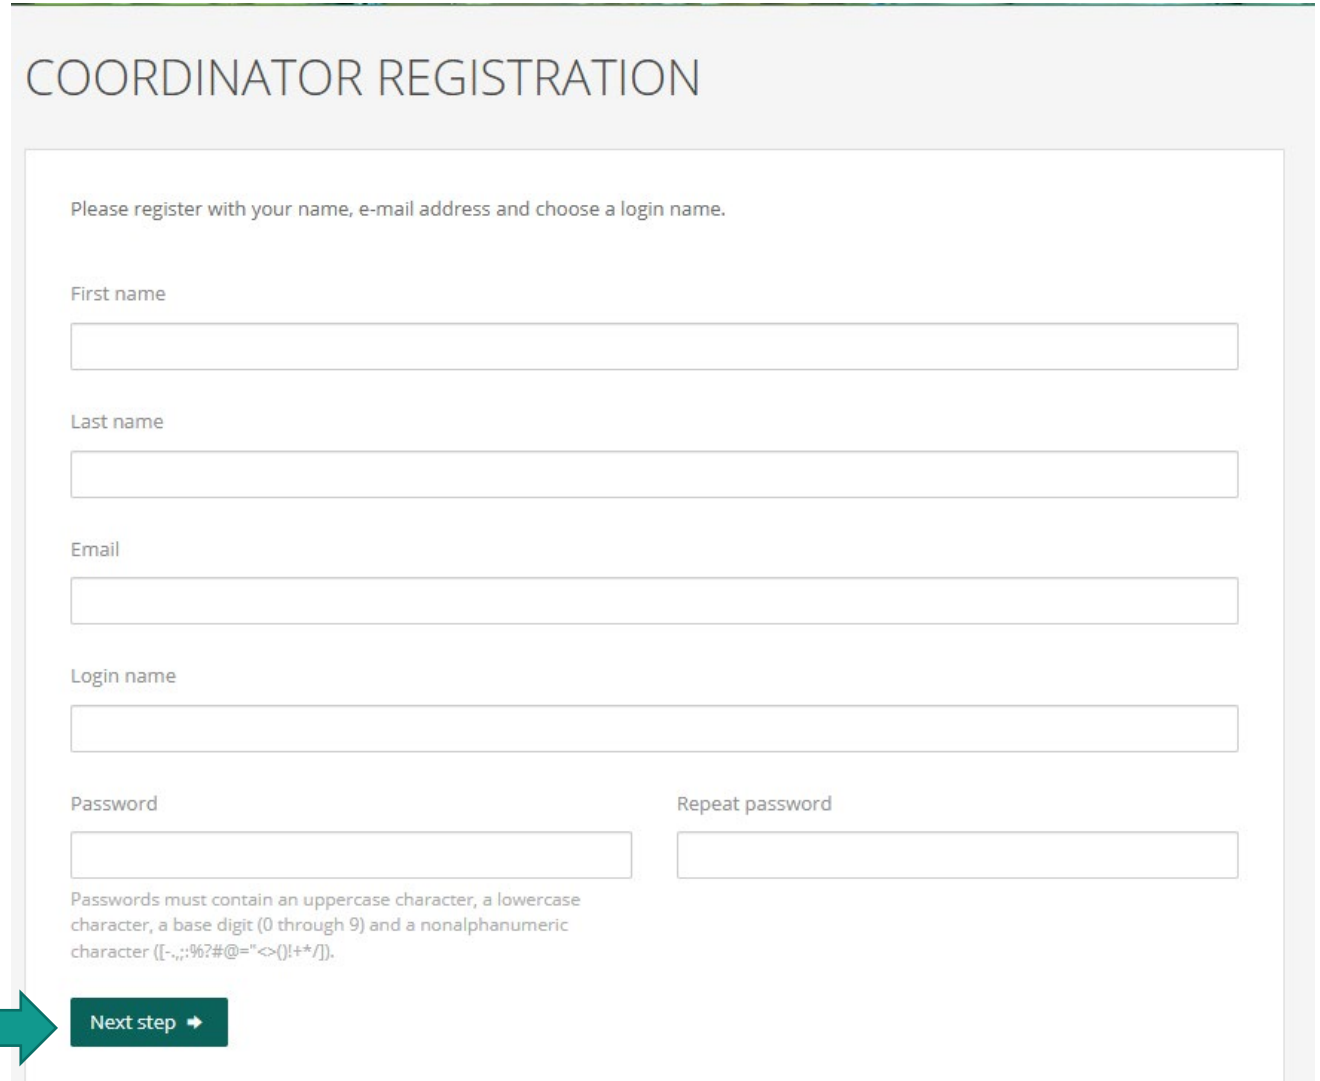

1.) The coordinator registration: Click on „Coordinator Registration“

5. Submission platform: How to submit a proposal?

Fill out all the data and set a password, click on „Next step“

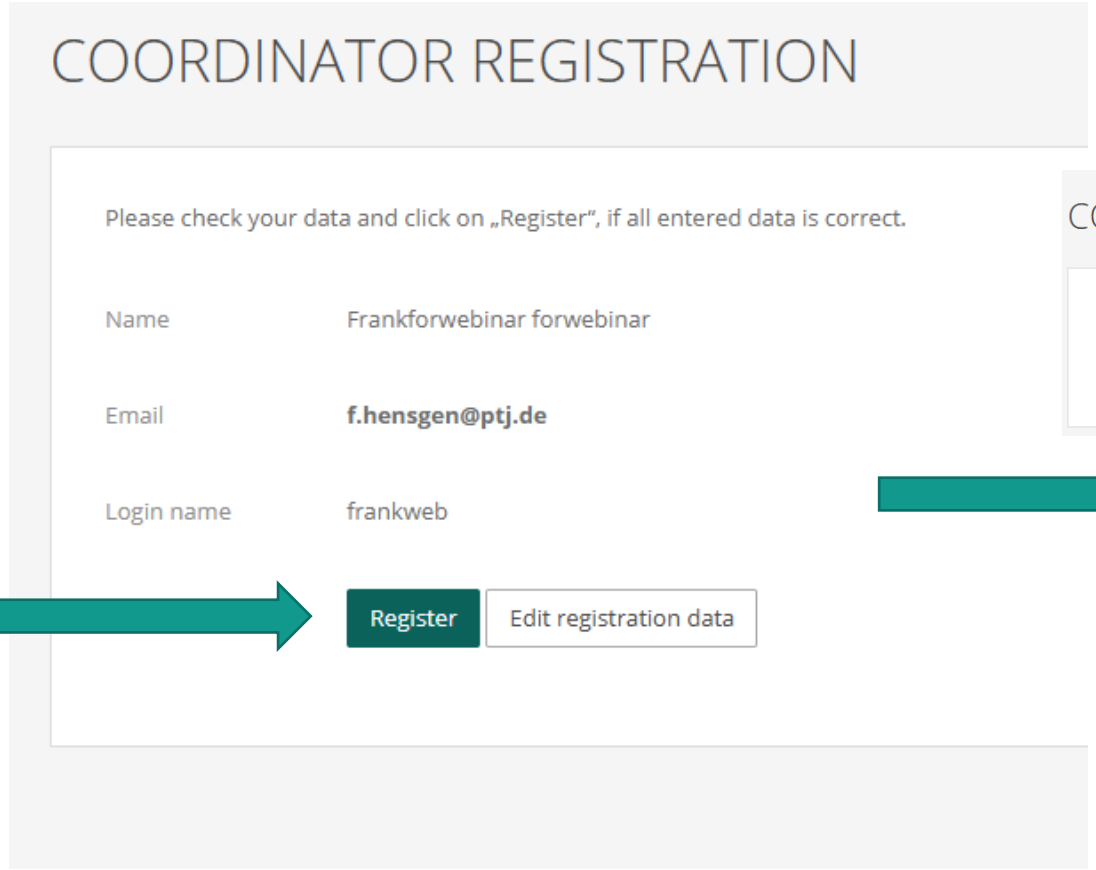

Passwords must follow the rules explained below the box

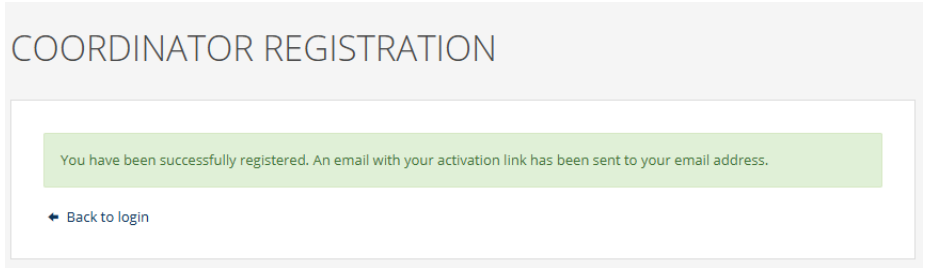

5. Submission platform: How to submit a proposal?

The coordinator registration:
If everything worked well, a confirmation should appear:
Press „Register“

5. Submission platform: How to submit a proposal?

The coordinator registration:
After registration you receive an e-mail from our „ptj-futurefoods@fz-juelich.de“ email adress with a link to finalise the process:
Follow the link!

Registration for FutureFoodS 3rd Call submission

Wir haben zusätzliche Zeilenumbrüche aus dieser Nachricht entfernt.

Dear Frank Test,

you registered for the third call of FutureFoodS. You can log into the system with your loginname:

TestF2

following this link:

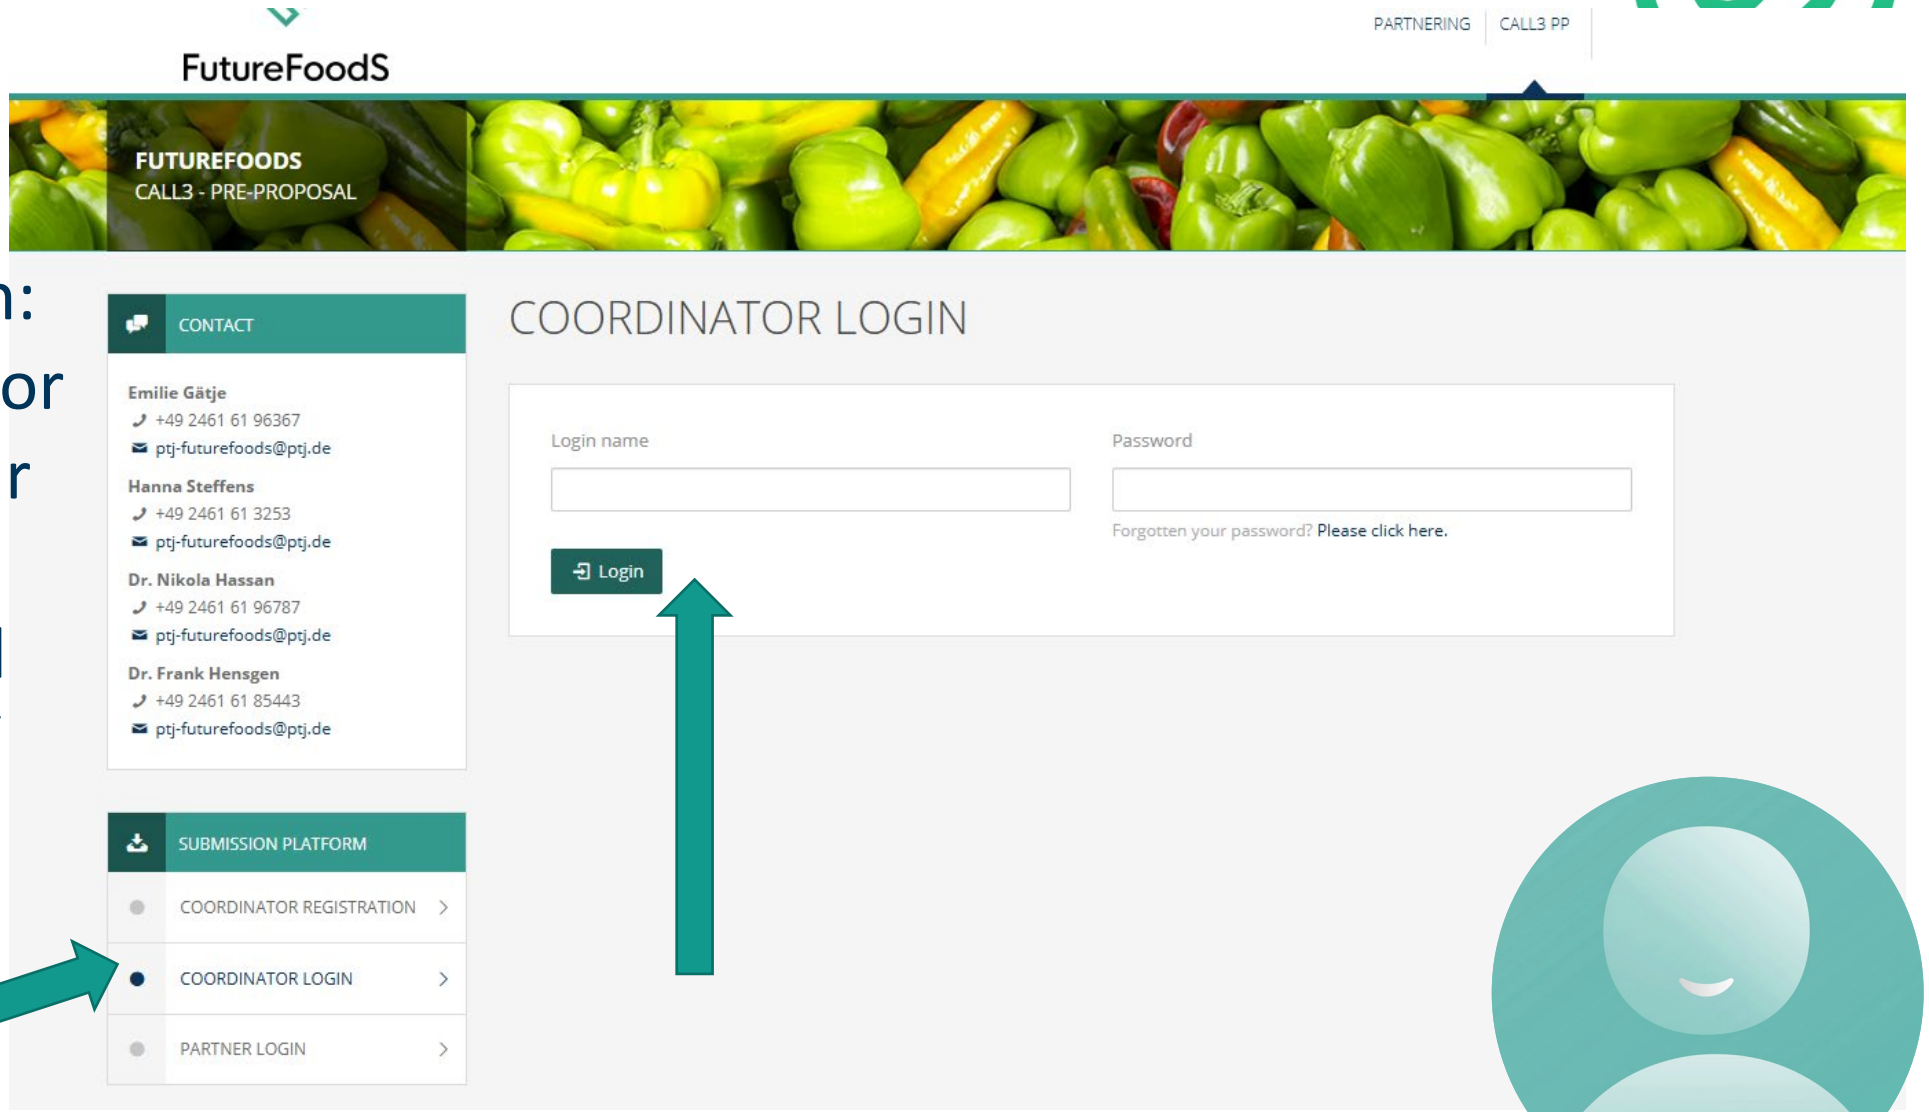

https://futurefoods.ptj.de/call3-pp/registration?action=activation&id=e9f7e677-ddbb-11f1-a277-fa163e7d9971&ac=50bcd1437b11f15b6043a11fcdccd7d38887703c

This email has been auto-generated. Please do not reply to this account.
Your email will not be read. For any inquiries please contact the Call Office.

5. Submission platform: How to submit a proposal?

After registration:
Go to „Coordinator Login“, enter your loginname and chosen password and press „login“

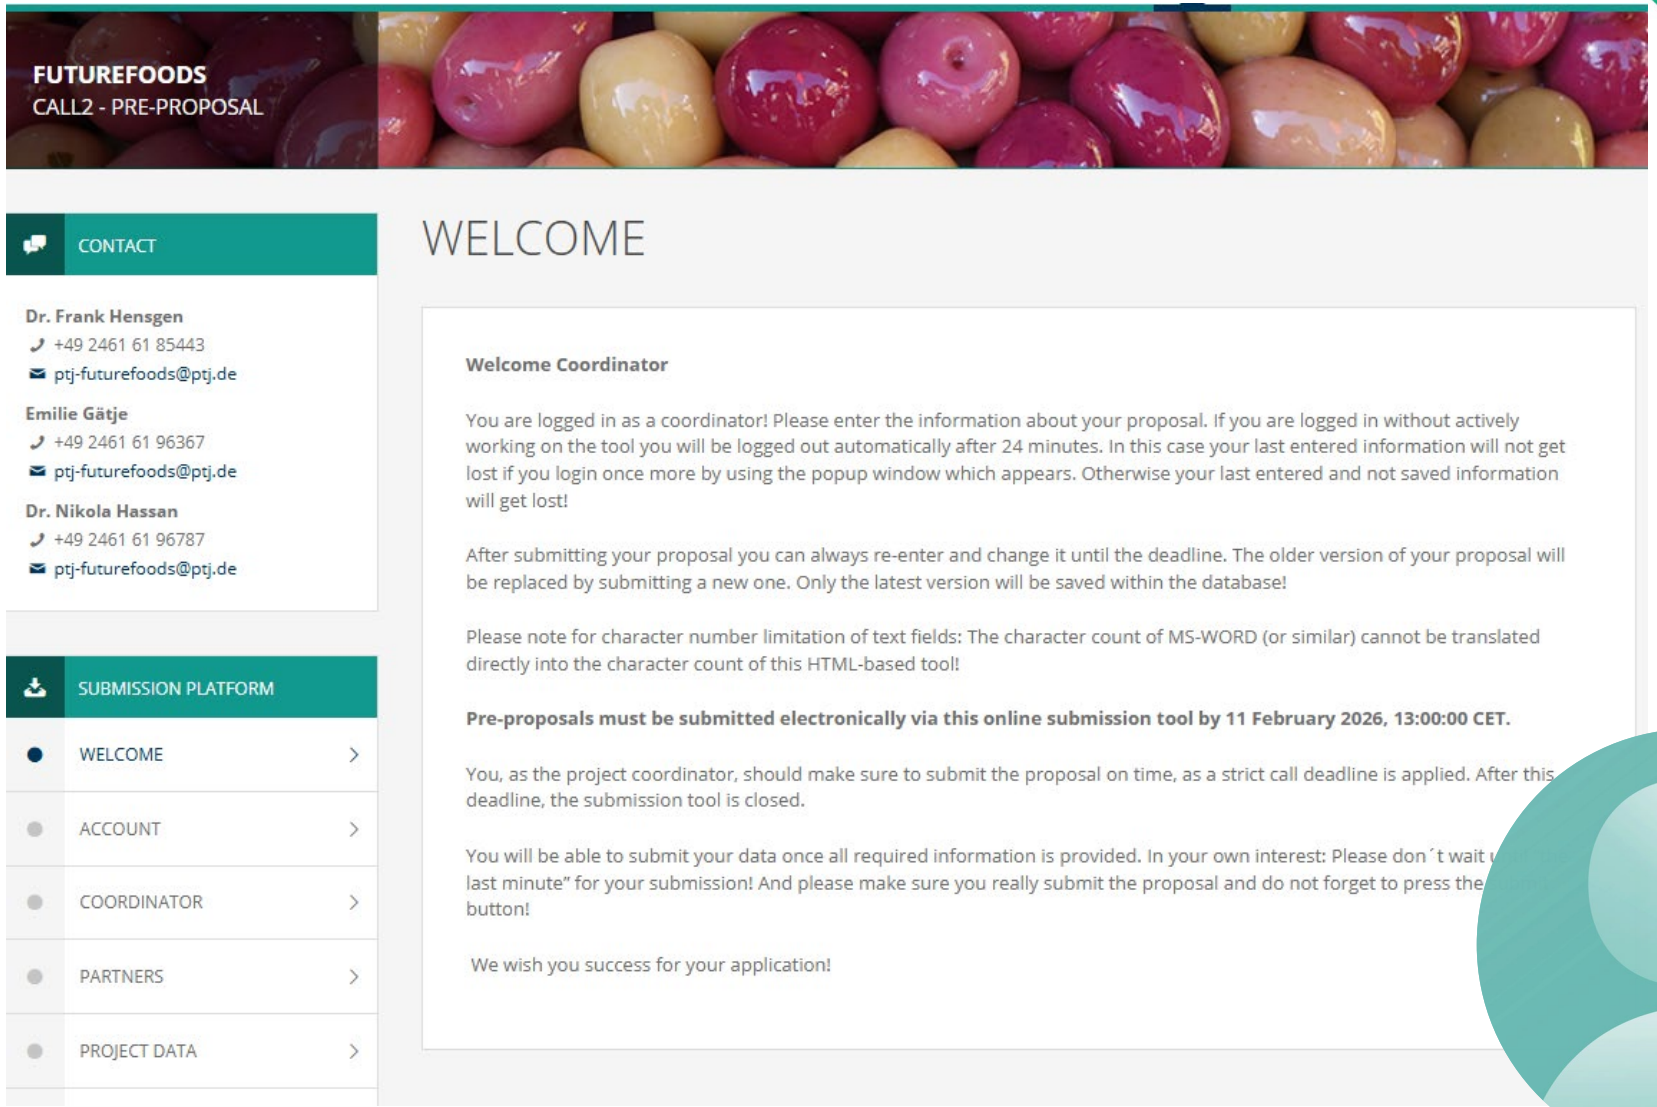

5. Submission platform: How to submit a proposal?

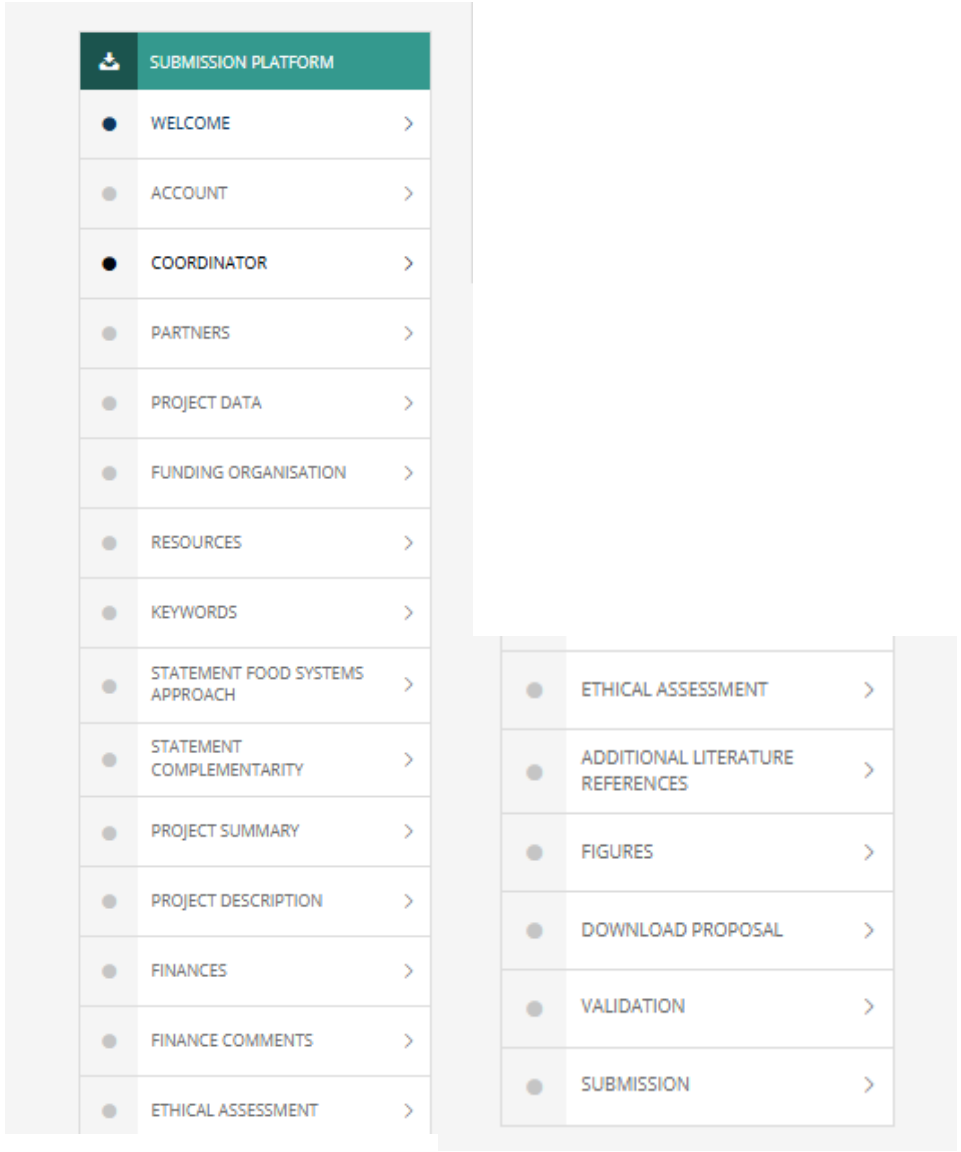

Coordinator Welcome:

Please read the welcome text

To the left you find a navigation bar where you can go from top to bottom and fill one step after the other

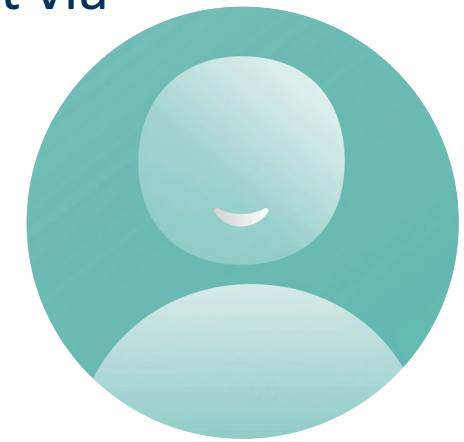

5. Submission platform: How to submit a proposal?

At the left side you find the different pages of the submission tool, listed one after the other. In order to submit a proposal you need to go through all of them.

I would advise to start at the top and move downwards. You can invite your project partners via „Partners“.

At the end, please do not forget to submit via „submission“.

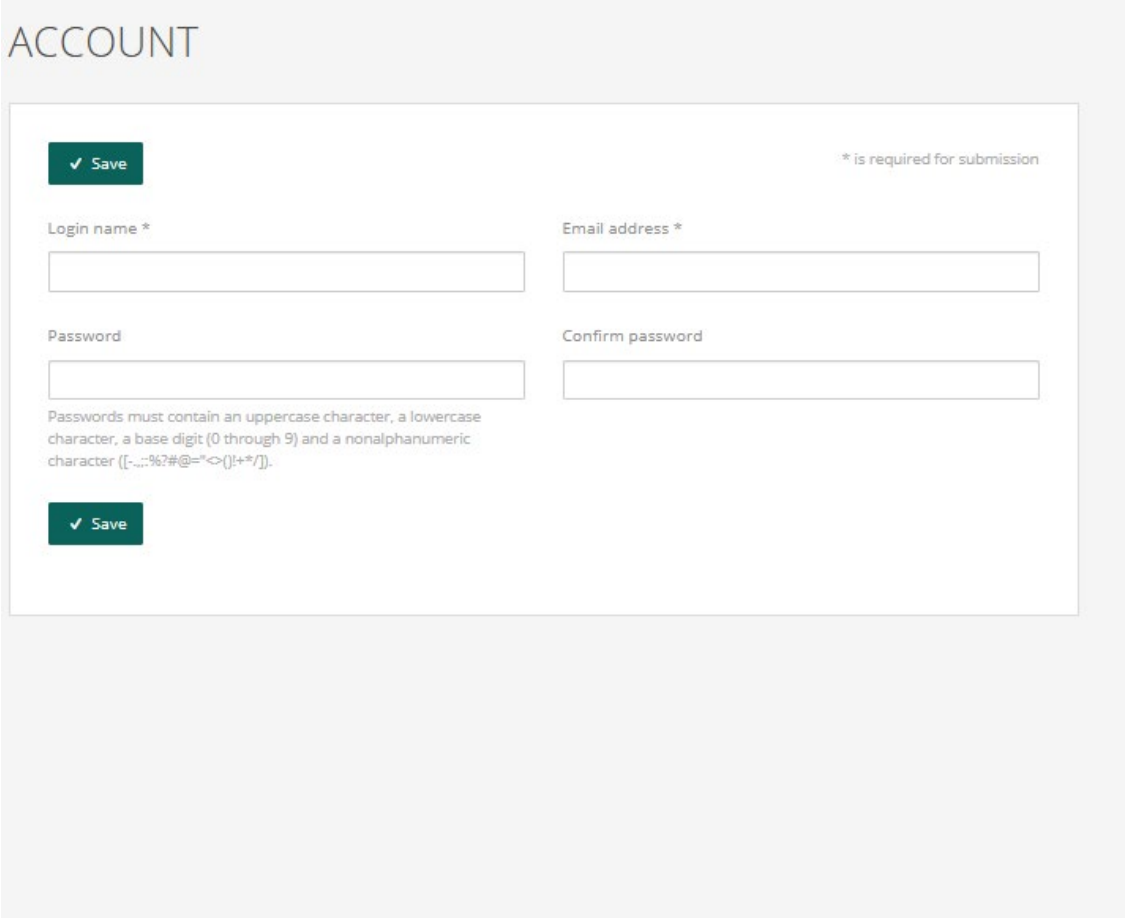

5. Submission platform: How to submit a proposal?

Account:

Here you can change your password, login name or email adress

Only <u>1 account per Partner per project</u> is possible.

5. Submission platform: How to submit a proposal?

Finance Comments:

Coordinator has to fill finance comments for all Partners, 1 box per Partner and Category

5. Submission platform: How to submit a proposal?

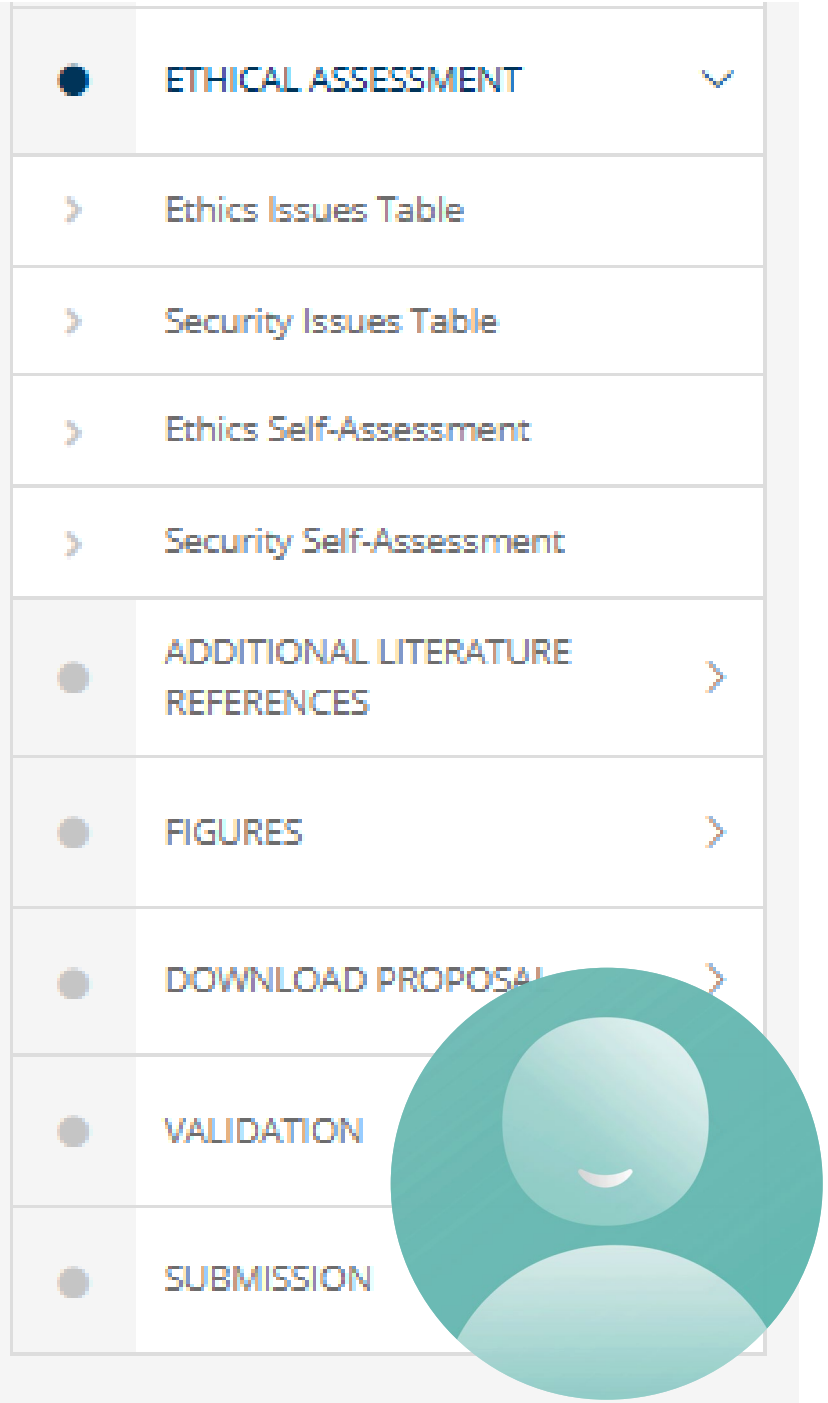

Ethics

The Ethical Assessment consists of **4 parts**. Each part has to be filled and has a dedicated sub-page.

The 4 parts are:

- Ethics Issues Table
- Security Issues Table
- Ethics Self-Assessment
- Security Self-Assessment

Please start by answering the questions in the Ethics Issues Table and the Security Issues Table, after this proceed to the Self-Assessment. Please fill in the Ethics Self-Assessment and address potential concerns/issues. Proposals may be rejected for funding on ethical grounds if they do not comply with European and/or national/regional legislation.

5. Submission platform: How to submit a proposal?

Ethics

Please fill the questionnaires for Ethics and Security Issues

.

ETHICS ISSUES TABLE

QUESTIONS

* is required
** is conditional required

1. Human Embryonic Stem Cells and Human Embryos

Does this activity involve Human Embryonic Stem Cells (hESCs)?

- Yes
- No

Does this activity involve the use of human embryos?

- Yes
- No

2. Humans

Does this activity involve human participants?

- Yes
- No

Does this activity involve interventions (physical also including imaging technology, behavioural treatments, etc.) on the study participants?

- Yes
- No

Does this activity involve conducting a clinical study as defined by the Clinical Trial Regulation (EU 536/2014)? (using pharmaceuticals, biologicals, radiopharmaceuticals, or advanced therapy medicinal products)

- Yes
- No

3. Human Cells / Tissues (not covered by section 1)

Does this activity involve the use of human cells or tissues?

- Yes
- No

SECURITY ISSUES TABLE

QUESTIONS

* is required
** is conditional required

1. EU Classified Information (EUCI)

Does this activity involve information and/or materials requiring protection against unauthorised disclosure (EUCI)?
European Union classified information (EUCI) means any information or material designated by an EU security classification, the unauthorised disclosure of which could cause varying degrees of prejudice to the interests of the European Union or of one or more of the Member States.

- Yes
- No

Does this activity involve non-EU countries which need to have access to EUCI?

- Yes
- No

2. Misuse

Does this activity have the potential for misuse of results?

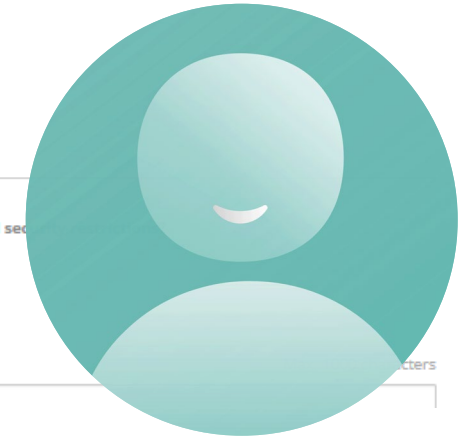

- Yes
- No

3. Other Security Issues

Does this activity involve information and/or materials subject to national se
If yes, please specify: (Maximum number of characters allowed: 1000)

- Yes
- No

Ethics

After filling the Ethics and Security Issues Table and if you have identified any Issues, Please fill Ethics and Security Self-Assessment.

ETHICS SELF-ASSESSMENT

QUESTIONS

* is required
** is conditional required

Ethical dimension of the objectives, methodology and likely impact

Identified ethical issues in questionnaire "Ethics Issue Table", please explain in detail the identified issues in relation to:

- Objectives of the actitivity (e.g. study of vulnerable populations)
- Methology (e.g. clinical trialsm involvement children, protection of personal data, etc.)
- The potential impact of the activities (e.g. environmental damage stigmatisation of particular social groups, political or financial adverse consequences, misuse, etc.)

Comment * Max. 5000 characters

Compliance with ethical principles and relevant legislations

In case you have identified ethical issues in questionnaire "Ethics Issue Table", please describe how those issue(s) will be addressed in order to adhere to the ethical principles and what will be done to ensure that the activities are compliant with the EU/national legal and ethical requirements of the country or countries where the tasks are to be carried out. It is reminded that for activities performed in non-EU countries, they should be also allowed in at least one EU MS

As long as validation is not green and error messages occur:

If validation is green:
Ready for submission,
Read and confirm declaration

SUBMIT !!!

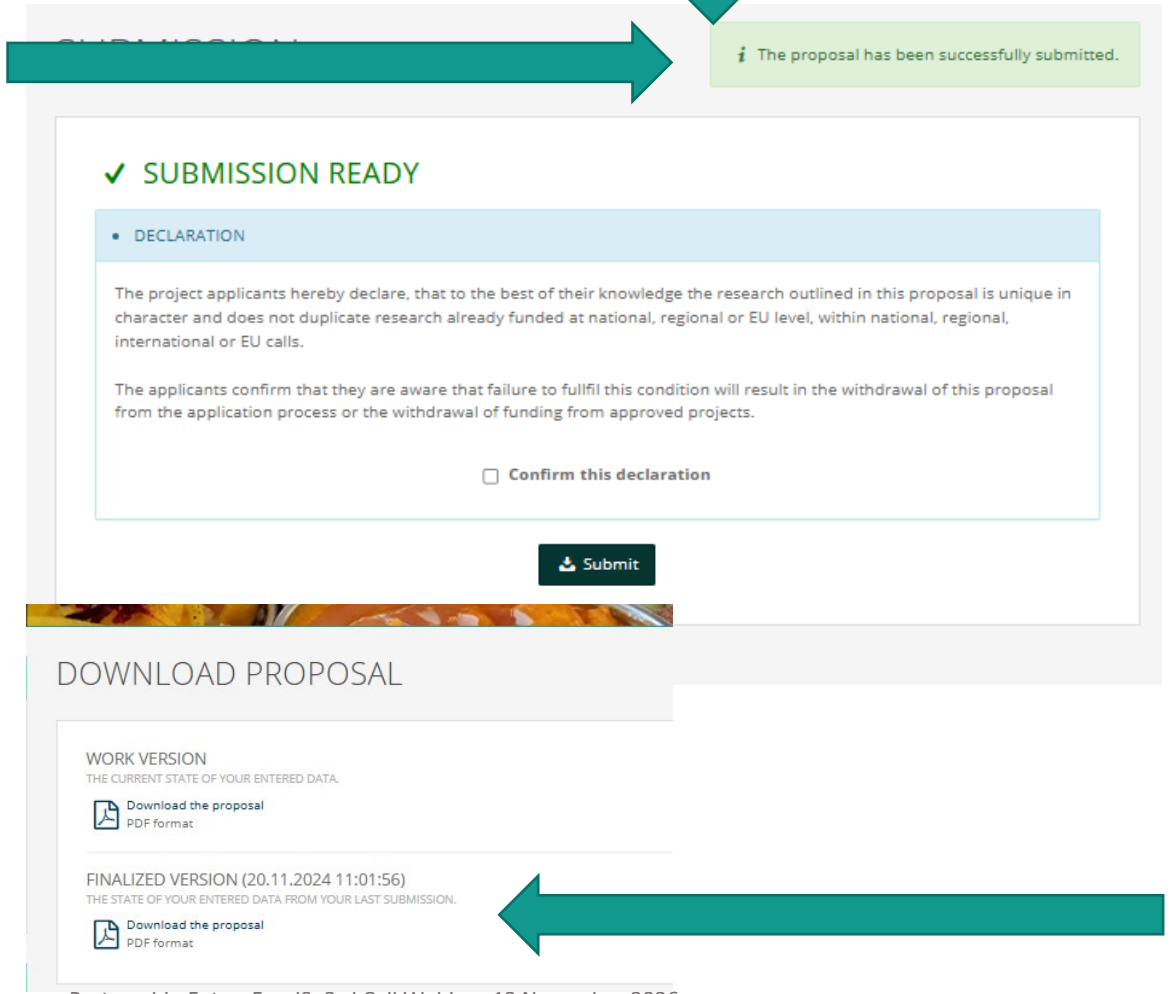

5. Submission platform: How to submit a proposal?

After successful submission:

- **You can always re-submit until the closing date**
- **Your proposal partner receive an email every time you submit!**
- **Please check, if you have really submitted!**
- **If you have submitted, you find the <u>finalized</u> version under “download proposal”**

Q&A

Wrap up

- All slides and recording will be shared and made available after the webinar
- Q&A with frequent and important questions is available on the submission platform (Call Documents)

- Please contact in case of questions:
  - ptj-futurefoods@ptj.de

Thank you for your attention and good luck with your proposal !!!
